

INDUSTRY LEADER IN FLUID STORAGE SOLUTIONS

# Professionals, Complete Your Fluid Management System with PROFILL® Transport Containers.

PROFILL® Transport Containers are the preferred solution to ensure clean, accurate and reliable transfer of critical fluids.

Easy Grip Handle

1" Fill Port  
Quick Filling

1/2" Accessory Port

Thumb Activated  
Switch Style  
Breather Vent  
Easy, One Handed  
Dispensing

Pour Lid  
Available in 3 Popular  
Nozzle Sizes:  
6mm, 12mm, 25mm

Color-Coded Inserts  
Accurate Product and  
Tank Identification

Fluid Level Markings  
in English and Metric

Square Shaped Drums  
Space Saving Storage  
and Easy Labelling

3 Container Sizes  
2, 5 and 10 Litre

Flexible Accessories  
Extension Hoses  
and the Hand  
Pump Allow  
Users to  
Dispense Fluids  
in Confined  
Areas

Sealable Clear Label Pouches  
Adhere to Container to Display  
Fluid Information or Directives

## Drums

These drums are made from high-density polyethylene (HDPE) with UV and static inhibitors, and are designed to withstand the daily rigors of industrial environments. Each drum includes color-coded labels for identifying drum contents.

Part #	Description
TSD2	2 Litre Drum
TSD5	5 Litre Drum
TSD10	10 Litre Drum

## Lids

These lids are made from high-density polyethylene with nitrile o-rings. Pour lids include a twist-open nozzle, (available in 3 different sizes), 1" quick-fill port, accessory port with 1/2" NPT female thread, light-switch style breather vent at thumb position and clear plastic handle covers that hold color-coding tags.

Pump/Storage Lids include (1) 1" quick-fill port and (2) accessory ports: 1/2" NPT female thread and 3/8" NPT female thread.

Each lid includes a color-coding kit, which consists of:

- 10 Colored Tags (red, blue, yellow, lime green, forest green, black, orange, purple, gray & tan)
- Clear Plastic Tag Holders / Screws (if applicable)

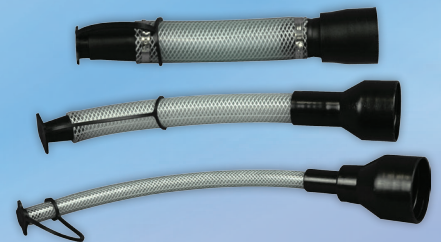

Part #	Description
TSL6	Pour Lid with 6mm Nozzle
TSL12	Pour Lid with 12mm Nozzle
TSL25	Pour Lid with 25mm Nozzle
TSPL	Pump/Storage Lid

## Extension Hoses

Extension Hoses screw onto the end of the pour lids, allowing an extra 11" (0.28 meters) of reach. Each pour lid has a matching size extension hose.

Part #	Description
TSH6	Extension Hose for 6mm Nozzle
TSH12	Extension Hose for 12mm Nozzle
TSH25	Extension Hose for 25mm Nozzle

## Pump

The piston-style hand pump includes a 4.8 foot (1.5 meter) hose and L-shaped aluminum anti-drip end-piece with a 7/16" OD (11mm) and 5/16" ID (8mm). Pump discharge rate is appx. 13 strokes per Litre. The pump is ideal for dispensing fluids into hard-to-reach fill ports.

Requires Pump Lid (part #TSPL). Not for use with 2 Litre Drums.

Part #	Description
TSHP	Piston Style Hand Pump
