

Stainless Steel Heat Exchanger EXCLUSIVE

Designed to prevent corrosion, warping and weld breakage. Built to last decades, not years.

Digital Hour Meter STANDARD

Tracks runtime

Accutemp Preheater PATENTED

Rapidly heats the widest range of viscosities of used oil, synthetic oils and other acceptable fuels.

Integrated Air Compressor STANDARD

Built in so you don't have to connect to and rely on shop air. Providing 24/7 heating availability.

Side Suction Metering Fuel Pump PATENTED

Reliable, consistent fuel delivery regardless of fuel type (up to 90W) with no manual adjustments.

Low Fuel Cut Off EXCLUSIVE*

Turns off the furnace before running out of fuel – preventing time-consuming troubleshooting, shutdowns and repriming.

*included with fuel delivery kits, complete systems and with furnace only.

Elevated Fuel Pick Up EXCLUSIVE

- 1) Pump can be mounted at the fuel source—instead of on top of the tank—so the pump is flooded with used oil, not air!
- 2) Fuel pick up is six inches above the bottom of the tank, above water and sludge, ensuring only used oil is sent to the furnace.
- 3) Easy spin-on stainless mesh filter.

Flame Retention Head PATENTED

This patented design creates a hotter flame than competitor brands for complete fuel combustion and highest heat output. Less ash is produced resulting in longer maintenance intervals than competitor brands.

Swing Away Burner and Ash Removal Port STANDARD

This convenient combination makes cleaning the chamber faster and easier than any other brand. One tool, 30 minutes or less.

Fuel Gauge STANDARD

Visual indicator of how much used oil is in your tank.

Drain Valve EXCLUSIVE

Makes it simple to purge water or other contaminants that naturally settle in the bottom of the tank.

Class A Flue Kit STANDARD*

Stainless steel interior, double-wall flue kits are UL-listed and meet local codes.

*standard for complete system or sold separately.

Pictured: 200H on 250 tank and Class A Flue Kit.

140H

Heats up to 3,500 square feet

200H

Heats up to 5,000 square feet

350H

Heats up to 9,000 square feet

Furnace Only

Approved Fuels

Used crankcase oils, ATF, No. 2 fuel oil, up to 90 weight gear oil and diesel fuel

Electrical Req.

115 VAC 60Hz, 25 amps | maximum dedicated circuit

Warranty

10 years on heat exchanger, five years full and five years prorated
Up to 2 years on parts*

*One year warranty standard. Second year warranty requires product registration within 30 days of product receipt.

Regulation and Certification

EPA approved
UL-Listed - U.S. and Canada
