2017 NEW PRODUCTS

Innovation is one of Rousseau's core values, which means we are always improving and expanding our range of products to exceed customer expectations. It is therefore with great pride that we present our latest innovations for 2017.

Service advisor desk

Our service advisor desks, found on page 75, are ideal for greeting visitors thanks to their combination of aesthetics, ergonomics and efficiency. With a spacious work surface and additional options such as monitor supports, power feed panels, and waste and recycling containers, these desks are highly practical while also welcoming for your customers.

Corner service counter

Corner service counters are ideal for welcoming customers and help staff to offer fast and efficient service. The front of the counter can also display your brand colors with our personalized panels service. See page 97 for more information and to see all the configurations and combinations available.

Corner workstation

Rousseau now offers a full range of corner workstations, which are presented on page 30. With four different configurations and the option to customize the product, a corner workstation makes maximum use of the available space in your dealership. The workstations are 30" deep and are anchored between two cabinets to create an invaluable extra work surface at an ergonomic height (36" and 40").

Personalized panels

Rousseau offers a personalized engraving service for stainless steel panels on GT workstations, service advisor desks and corner service counters. The three engraving options available are explained on page 77.

TekZone workstation hutch

Our TekZone workstation hutch, which can be found on page 36, is a unique product on the market. With a spacious 40" high workspace and many accessories available, it provides technicians with a highly customizable and ergonomic workstation. The full-width handle and ingenious sliding door system ensures that opening and closing the hutch is smooth and easy with any hand position.

The TEKZONE Hutch

ROUSSEAU EXPERTISE

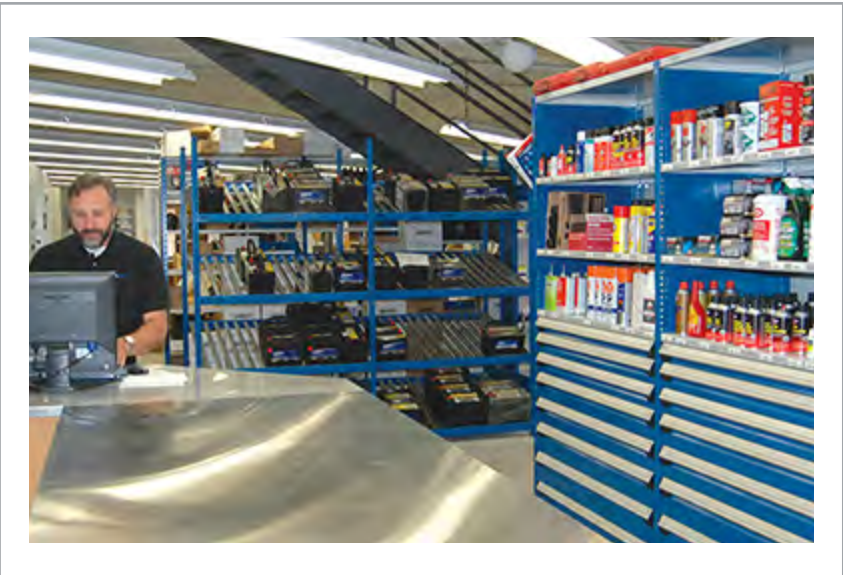

Designed, developed and manufactured in North America

We invest heavily in product development, modernization of our facilities, new technologies and our employees to offer premium-quality products, from design to manufacturing to end product.

Our goal is to understand your requirements so we can create tailored solutions that meet your expectations and needs in terms of your environment (new construction or existing construction) and priorities.

SERVICE DEPARTMENT

A service department in your own image

Rousseau's technicians' workcenters are the most complete and versatile solutions on the market. Our specialists will help you find a custom configuration that meets your unique requirements and reflects the professional image of your company.

Mercedes-Benz Winnipeg (BC)

A complete solution

We have the solution whether you are looking for basic workstations with a little or a lot of storage, or a more comprehensive workstation with integrated lift motor control, computer systems, reels and much more.

We have a wide range of additional options, including tech caddies, waste containers, hanging panels and power feed panels, so you can add everything you need to your workstation.

A personalized solution

Rousseau designs and manufactures its workstations with a height of 36" to ensure they are as ergonomic as possible. This is the perfect height to work standing up in a service department for the vast majority of people. However, if your team members need extra height, 40" work surfaces are also available.

Try out our Bay Design tool!

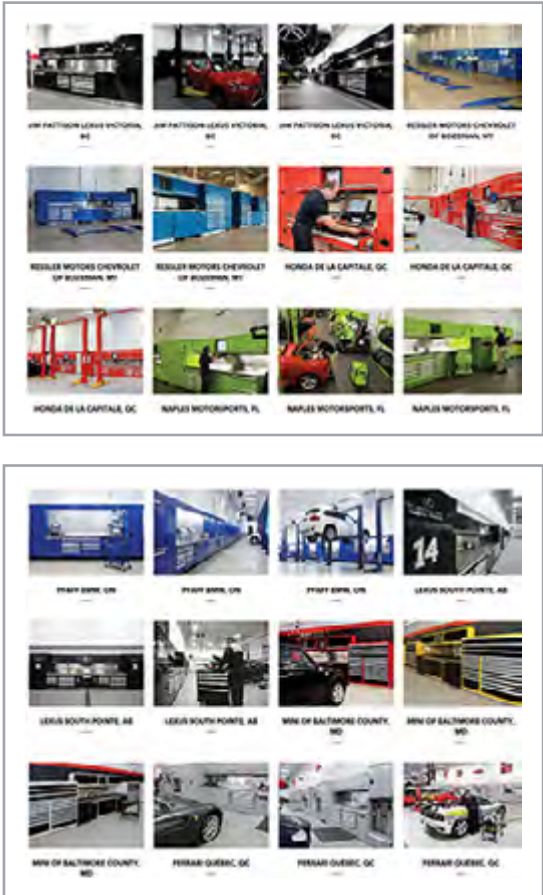

Do you have an idea what kind of workstation you need? If you do and would like a quick preview of what your ideal workstation would look like, be sure to try out our Bay Design tool on rousseau-automotive.com. In just a few easy steps, you can configure your very own workcenter. If you can't find exactly what you're looking for with our Bay Design tool, not to worry: the tool only shows the most popular dimensions, options and accessories, but others are available. For a personalized solution, our team of specialists will suggest options and help you find a configuration that meets your requirements.

The Bay Design tool offers a way for you to create and preview a custom layout in just a few easy steps. When you're happy with your design, you can save it or request a quote with your desired specifications.

Try it right now!

Need inspiration?

Take a look at our Portfolio in the Information Center section on rousseau-automotive.com.

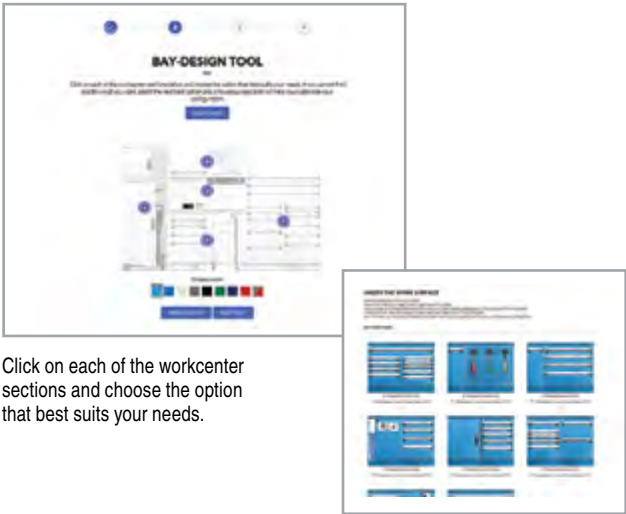

1

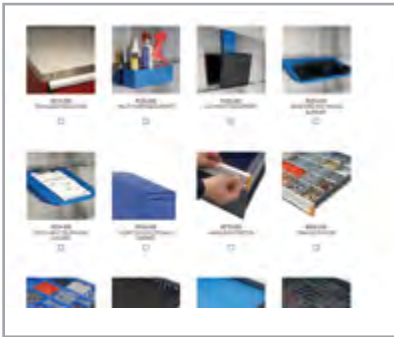

Specify the desired worksurface width.

2

Click on each of the workcenter sections and choose the option that best suits your needs.

3

Choose accessories to complete your solution.

4

Share it, save it or request a quote.

CREATE YOUR LAYOUT

5 easy steps

Our specialists will evaluate with you the best configurations possible for your situation. They will take into consideration many different factors, such as:

- What is the total amount of space available (layout)?
- Is computer access required?
- How much space is needed for tools?
- Where do the reels come from (air, electricity, oil, etc.)?
- How much space is needed for bulky storage?
- What type of lift do you use (integrated or posts, brand)?
- Do you need task lighting?
- Etc.

We suggest a five-step method that will allow you to create your own layout easily and quickly. The following pages are organized by these steps.

See the Difference...

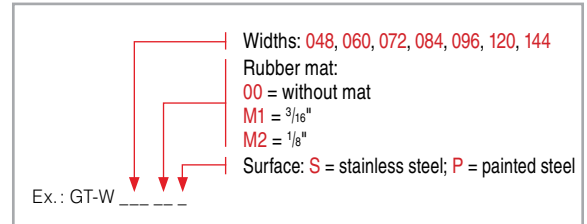

Following the steps below, you can create a custom model by choosing from the proposals found on pages 16-29 for 144", 120", 96", 84", 72", 60" and 48" wide workstations. To order, complete the product numbers according to the logic in the following steps:

1 Type of Surface

Widths available: 48", 60", 72", 84", 96", 120" and 144" (2 x 72");

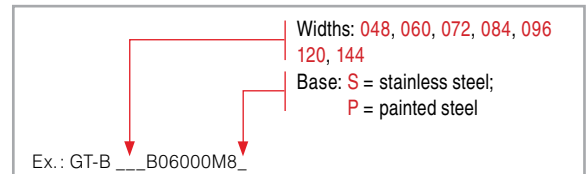

Type of worksurface: painted or 16-gauge stainless steel;

Rubber mat available; The mats are 26" deep in order to accommodate the tech uprights (RD44), the cover panels (RC62 / RC63 / RC66 / RC67 / RC68 / RC69) or the power feed panels (RC60 / RC61 / RC64 / RC65).

2 Under the Worksurface

The models suggested are among the most popular. Simply add "S" to the end of the model number for a stainless steel base, or "P" for a painted steel base.

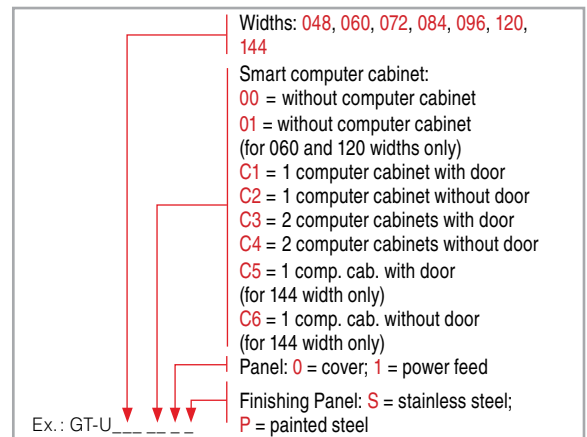

3 Above the Worksurface

Widths available: 48", 60", 72", 84", 96", 120" and 144" (2 x 72");

Includes the following items: storage cabinet, smart computer cabinet, power feed and cover panel, tech upright and panel support;

Panel: painted or stainless steel.

4 Center

4A With Cabinets (above the worksurface)

Widths: 48", 60", 72", 84", 96", 120" and 144" (2 x 72");

Includes the following items: finishing, louvered and perforated panel;

Finishing and perforated panels: painted or stainless steel.

4B Without Cabinets (above the worksurface)

Widths: 48", 60", 72", 84", 96", 120" and 144" (2 x 72");

Includes the following items: finishing panel, tech uprights, panel support and cover or power feed panel;

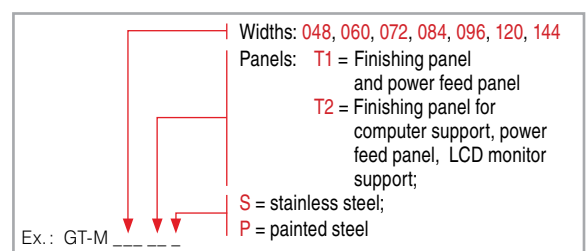

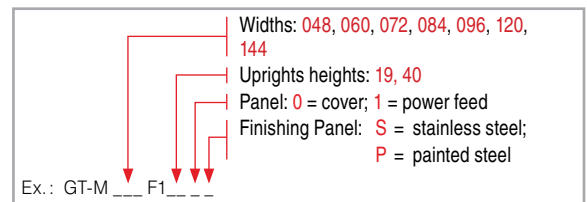

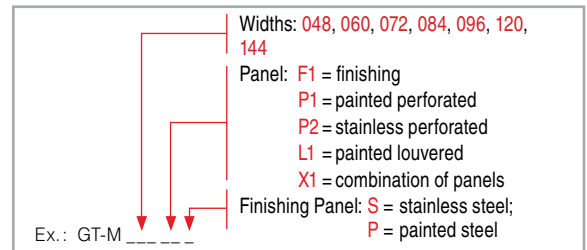

Finishing, power feed and cover panels: painted or stainless steel.

4C Without tech uprights (above the work surface)

Widths: 48", 60", 72", 84", 96", 120" and 144" (2 x 72");

Includes the following items: finishing panel for computer support, finishing panel and power feed panel without tech uprights, LCD monitor support;

Finishing panel: painted steel or stainless steel.

5 Sides of Bays

See page 15

1 TYPE OF SURFACE

Note: The width of the surface determines the width for steps 2, 3 and 4.

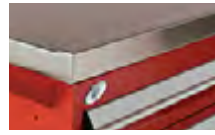

Stainless Steel Top

- Serves as a worksurface and protects cabinet against impacts;
- Composite wood top with stainless steel cover (brushed finish #4);
- Excellent chemical resistance;
- Excellent corrosion resistance;
- Welded corners for an attractive look;
- Offered in 12-gauge or 16-gauge steel (the 12-gauge steel top provides better resistance to impacts);
- Thickness: 12-gauge top: 1 13/16";
- Thickness: 16-gauge top: 1 3/4";
- Complete number with **12** for a 12-gauge steel top.

Product #	W x D
RC35-4830-	48" x 30"
RC35-6030-	60" x 30"
RC35-7230-	72" x 30"
RC35-8430-	84" x 30"
RC35-9630-	96" x 30"
RC35-12030-	120" x 30"

Note: For a workbench 144" wide, order two 72" wide tops.

Marine Edge Stainless Steel Top

- The edge keeps hardware and liquids from falling off;
- Serves as a worksurface and protects the top of the cabinet from impacts;
- Composite wood top with stainless steel cover (brushed finish #4);
- Excellent chemical resistance;
- Excellent corrosion resistance;
- Welded corners for an attractive look;
- Offered in 12-gauge or 16-gauge steel (the 12-gauge steel top provides better resistance to impacts);
- Thickness: 12-gauge top: 1 13/16" and 2" edge;
- Thickness: 16-gauge top: 1 3/4" and 1 15/16" edge;
- Complete number with **12** for a 12-gauge steel top and 16 for a 16-gauge steel top.

Product #	W x D
RC35-4830- M	48" x 30"
RC35-6030- M	60" x 30"
RC35-7230- M	72" x 30"
RC35-8430- M	84" x 30"
RC35-9630- M	96" x 30"
RC35-12030- M	120" x 30"

Note: For a workbench 144" wide, order two 72" wide tops.

Painted Steel Top

- Serves as a worksurface and protects cabinet against impacts;
- Composite wood top with painted steel cover;
- Welded corners for attractive look;
- Thickness: 1 3/4".

Product #	W x D
RC37-4830	48" x 30"
RC37-6030	60" x 30"
RC37-7230	72" x 30"
RC37-8430	84" x 30"
RC37-9630	96" x 30"
RC37-12030	120" x 30"

Note: For a workbench 144" wide, order two 72" wide tops.

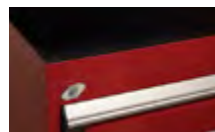

Neoprene Rubber Mat

- Neoprene mat for protecting the worksurface;
- 1/8" thick;
- Order a 26" D mat for an application with tech uprights, 30" D without.

Width	Depth	
	26"	30"

Note: Not compatible with marine edge stainless steel top.

Sliding Lift Motor Unit for Rotary Shockwave™

- Easy and quick access to the lift control by sliding the unit out;
- Facilitates access to the lift control on both sides;
- Unit comes with a housing and has a removable front;
- 4" base: painted or stainless steel;
- Compatible with 120 V only.

Product #	Type of Base	W x D x H
RC05-18273401	Painted steel	18" x 27" x 34"
RC06-18273401	Stain. steel	18" x 27" x 34"
RC05-18273801	Painted steel	18" x 27" x 38"
RC06-18273801	Stain. steel	18" x 27" x 38"

Sliding Lift Motor Unit

- Easy and quick access to the lift control by sliding the unit out;
- Facilitates access to the lift control on both sides;
- Offered for Rotary Mechanical, Rotary inground SmartLift®, Challenger with BMC and Challenger AquaVantage;
- Unit comes with a housing;
- 4" base: painted or stainless steel;
- Compatible with 220 V only.

Note: Add **20** to the RC__ product number for a painted steel base or add **21** for a stainless steel base.

Note: Complete number with **34** for a 36" H workcenter and by **38** for a 40" H workcenter.

Product #	Type of Lift
RC _-1227_01	Challenger with BMC (for controls on the work bench)
RC _-1227_05	Rotary inground SmartLift® (from 2007 to present)
RC _-1227_06	Challenger AquaVantage
RC _-1227_07	Rotary Mechanical (conventional controls, September 2010 to present)
RC _-1227_09	Challenger with BMC (controls integrated into sliding lift motor unit)

Waste Container

- 28 gallons capacity (note: the square bin has a 14% greater capacity than the round bin);
- The rounded corners facilitate cleaning;
- Dimensions: 21 1/2" W (25" with the handles) x 21 1/2" D x 22 1/2" H;
- A door is available for perfect integration under the work-surface (RB52);
- Mobile pedestal also available (RK07).

Product #	Includes
RK06-01	Waste Container
RK07-01	Waste Container Dolly

Waste and Recycling Cabinet

- Cabinet can be used as a single unit, integrated in cabinet combinations or integrated underneath the worksurface;
- Allows sorting objects for recycling;
- Equipped with one 26" H drawer with identification on the drawer handle to facilitate sorting for model of 30"H and one drawer of 4" for the model of 34"H;
- Equipped with two 15 1/4" W x 11" D x 20" H containers, the black one for waste (RK09-02) and the blue one for recycling (RK09-01);
- The drawer has one divider to stabilize the containers and also allows storing objects behind.

Note: Add **S** to the end of the product # for a stainless steel base or **P** for a painted steel base.

Product #	W x D x H	Workbench Height
GT-5ACG30050	24" x 27" x 34"	36"
GT-5ACG34050	24" x 27" x 38"	40"
GT-5ADG30050	30" x 27" x 34"	36"
GT-5ADG34050	30" x 27" x 38"	40"

Waste and Recycling Bins

- Allows for separation of waste and recycling items;
- Available in black for waste and blue for recycling (with logos on the sides);
- 2 sizes: small (14 3/8" W x 10 1/4" D x 15" H), large (15 1/4" W x 11" D x 20"H);
- Panels (RB53 / RB57) and base (RA59 / RA60) are offered for perfect integration under the worksurface.

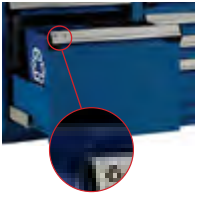

Note: The large bins were designed to be used with a waste and recycling panel or a 26" high waste and recycling drawer while the small bins are best used with a 17" high waste and recycling drawer.

Product #	Size	Color
RK08-01	Small (7 gallons / 26.5 liters)	Blue
RK08-02	Small (7 gallons / 26.5 liters)	Black
RK09-01	Large (10 gallons / 39 liters)	Blue
RK09-02	Large (10 gallons / 39 liters)	Black

GT-C1050S

2 UNDER THE WORKSURFACE

Drawer for Waste and Recycling

- Allows for separation of waste and recycling items;
- Logos on the side to make separating items easier;
- Available drawer heights: 17" and 26";
- Holds two containers (one black and one blue) with a divider to hold containers in place and allow for storage space at the back of the drawer.

Product #	W x D x H	Size of Containers
R51CG-X1701	24" x 27" x 17"	Small (7 gallons / 26.5 liters)
R51DG-X1701	30" x 27" x 17"	Small (7 gallons / 26.5 liters)
R51CG-X2601	24" x 27" x 26"	Large (10 gallons / 39 liters)
R51DG-X2601	30" x 27" x 26"	Large (10 gallons / 39 liters)

Panel for Waste and Recycling Bins

- Designed to perfectly integrate waste and recycling bins (RK08 / RK09) under the work surface without affecting the useable work surface;
- Equipped with a flipper door in stainless steel in order to throw-out items without having to open the panel;
- Support panel (RB57) must be ordered for units installed at the end of a bay;
- Base (RA59 / RA60) must be ordered to complete the installation and make it perfect.

Product #	Hinge	Height
RB53-2434L	Left	34"
RB53-2434R	Right	34"
RB53-2438L	Left	38"
RB53-2438R	Right	38"

Hideaway Door

- Designed to perfectly tuck away the waste container (RK06), tech caddy or smart compact mobile "L" under the work surface;
- Equipped with a handle to easily open the door;
- Offered with or without a lock.

Note: Add **L3** to the end of the product number to order a hideaway door with lock.

Note: Add **L** to the end of the product number to have the hinges on the left or **R** for the hinges on the right.

Note: Order a 21" or 24" wide hideaway door to fit a smart compact mobile "L" cabinet.

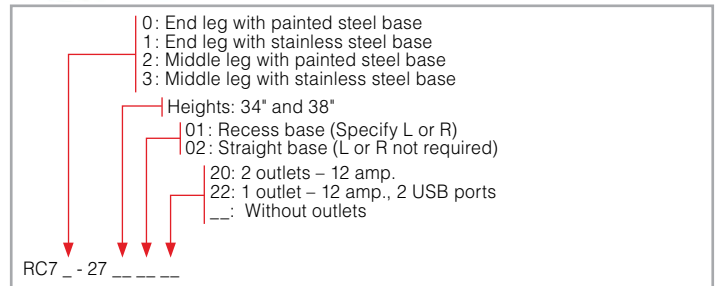

Product #	W x H	Nominal Height
RB52-1834	18" x 34"	30"
RB52-2134	21" x 34"	30"
RB52-2434	24" x 34"	30"
RB52-2734	27" x 34"	30"
RB52-1838	18" x 38"	34"
RB52-2138	21" x 38"	34"
RB52-2438	24" x 38"	34"
RB52-2738	27" x 38"	34"

Structural Closed Leg

- Available for end or middle of workstation;
- Can be used to integrate non-structural elements under the work surface while providing adequate support (for more than 18" W). Leg is 3" wide;
- The middle leg can be used to create workstations wider than 72" without having to use another structural element for support;
- 2 options can be added: Two 12A power outlets (for a 15A circuit), or one 12A power outlet (for a 15A circuit) with 2 USB ports;
- Use a stringer (RC77) for applications using only legs;
- Two types of bases (4") are available: recessed or full depth;
- The base is available in painted or stainless steel;
- Includes leveling glides;
- An inside finishing panel (RC74) is available to close the interior leg and provide a more finished look.

Door Kick Plate

- Compatible with hideaway door (RB52);
- Gives an impeccable finish;
- Available in painted or stainless steel.

Note: Complete number with **59** for a painted steel and by **60** for a stainless steel kick plate.

Product #	W x H
RB _ -180401	18" x 4"
RB _ -210401	21" x 4"
RB _ -240401	24" x 4"
RB _ -270401	27" x 4"

Crossmember

- To hold the closed leg during applications at the end of the workstation;
- Connects the leg to another structural element of the work-center to stiffen the bottom of the leg;
- Stainless steel.

Note: Complete the product number with the desire width: 18", 21", 24", 27", 30", 36", 42", 48" or 54".

Product #	Width
RC78- _ _	To be completed

LCD Monitor Support

- Can be used to support most LCD monitors up to 21" available on the market;
- Positioning of monitor anchors according to VESA 75 and 100 standards;
- You can order a single LCD monitor support or a double.

Product #	
RC59-03	Single screen
RC59-04	Double screen

Laptop Support

- Usable tray surface: 14" W x 12" D;
- The tray is equipped with non-slip strips (Velcro™) to ensure laptop doesn't move.

Product #	
RC59-42	

LCD Monitor, Keyboard and Mouse Support

- Usable surface of the keyboard and mouse tray: 23 5/8" W x 8 1/2" D;
- Can be used to support most LCD monitors up to 21" available on the market;
- Positioning of monitor anchors according to VESA 75 and 100 standards.

Product #	
RC59-21	

Electronic Tablet Support NEW DIMENSION

- Can be used to support most of the electronic tablets on the market;
- Safely holds the tablet in place;
- Rubberized pads prevent from scratching the device;
- The small version is compatible with tablets between 7 5/8" and 10" wide;
- The large version is compatible with tablets between 9 7/8" and 12 1/4" wide.

Product #	
RC59-62-01	Small
RC59-62-02	Large

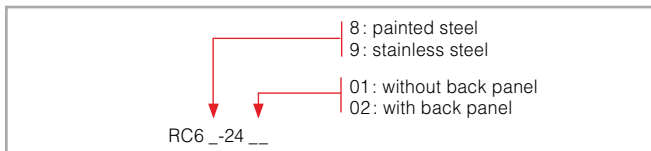

Finishing Panel for Computer Support

- Allows for installation of a computer support with a more polished look (RC59-03 / RC59-04 / RC59-21 / RC59-42 / RC59-62-01/02);
- Dimensions: 24" wide;
- Can be combined with a power feed panel (RC64 / RC65) or cover panel (RC66 / RC67) when required;
- Offered in painted or stainless steel finishes.

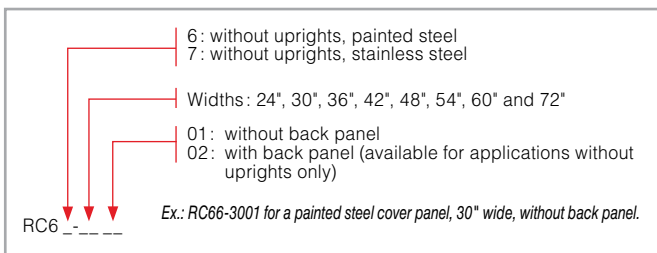

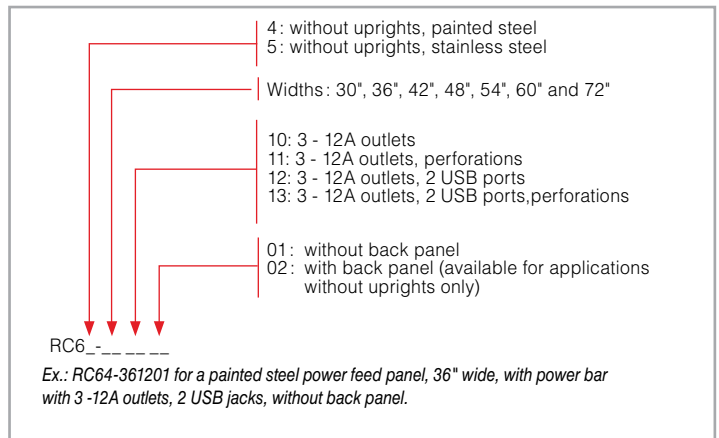

Power Feed Panel Without Uprights

- Includes a power bar with 3 12A outlets for 15A circuit;
- 2 options available: 2 USB ports and/or perforations for air connection and a perforations (covered with a finishing panel) for installation of a telephone jack or computer network;
- Can be installed on RC35 and RC37 tops;
- Available in stainless or painted steel.

Cover Panel Without Uprights

- Can be combined with a power feed panel when necessary, or used on its own for a perfect finish;
- Available in stainless or painted steel.

3 ABOVE THE WORKSURFACE

Tech Uprights

- Supports the storage cabinet (RD02), smart computer cabinet (R5MCA), panel support (RC47), cover panel (RC62 / RC63) and/or power feed panel (RC60 / RC61);
- Enables adjustment of cabinets 4" in height;
- Anchored firmly to the worksurface.

Product #	Height
RD44-19	19"
RD44-40	40"

Panel Support

- Supports the finishing (RC41 / RC42), louvered (RC45), perforated (RC43 / RC44) panels and finishing panel for computer supports (RC81 / RC82);
- Allows combination of different types of panels.

Note: For 19" RD44 uprights, add 03 to the number.

Note: For 40" RD44 uprights, add 01 to the number for the lower section and 02 for the upper section.

Product #	Width
RC47-24	24"
RC47-30	30"
RC47-36	36"
RC47-42	42"
RC47-48	48"
RC47-60	60"

LED Light

- Casts brighter light than fluorescent tubes and is more energy efficient;
- Eliminates shaded areas under the cabinet;
- Can be installed under the RD00 / RD02 cabinet;
- Color temperature: 6000 - 7000 K (cool);
- Gvanized steel adaptor is included;
- Equipped with a 10' power cord;
- The recommended operating temperature for our LED lights is between 5 and 40 °C (41 to 104 °F).

Product #	Storage Cabinet Width
RD45-1814	24"
RD45-2414	30", 36"
RD45-3614	42", 48", 24" + 24"
RD45-4814	60", 30" + 30"
RD45-6014	36" + 36"

Note: Not compatible with the smart computer cabinet.

Connecting Cable

- Up to 7 lights can be connected in series;
- Each light is independent and controlled by its own switch.

Product #	Cable Length
70001108	8"
70001112	12"
70001124	24"

GT-C1067S

Storage Cabinet with Flipper Door

- Can be used with wall-mounted application and with tech uprights (RD44);
- Back is removable when used as a wall unit allowing electrical components to be hidden;
- The flipper door features a wide handle for a comfortable grip (RD20);
- A light (optional) gives you optimum lighting (RD45).

Product #	W x D x H
R5MCB-2111	24" x 14" x 21"
R5MDB-2111	30" x 14" x 21"
R5MEB-2111	36" x 14" x 21"
R5MHB-2111	42" x 14" x 21"
R5MGB-2111	48" x 14" x 21"
R5MKB-2111	60" x 14" x 21"

Storage Cabinet with Integrated Sliding Door

- Can be used with wall-mounted application and with tech uprights (RD44);
- Back is removable when used as a wall unit allowing electrical components to be hidden;
- Integrated door provides maximum clearance for handling items stored in the cabinet;
- Polycarbonate door provides excellent impact resistance.

Note: Add 07 to the product number for a solid integrated door or add 08 for a polycarbonate integrated door.

Product #	W x D x H
R5MEB-21__	36" x 14" x 21"
R5MHB-21__	42" x 14" x 21"
R5MGB-21__	48" x 14" x 21"
R5MKB-21__	60" x 14" x 21"

Smart Computer Cabinet

- Has a monitor holder for storage of computers and LCD screens;
- Available with fan equipped with a filtration screen (for use alone) or without fan (use with slope top);
- Includes a power outlet strip;
- The keyboard support (optional) store away under the cabinet when not in use;
- The polycarbonate door (optional) is de-magnetized to eliminate image distortion.

Slope Top for Storage Cabinet and Computer Cabinet

- Serves to keep the work space safe and tidy, while reducing the number of items left lying around;
- Perfect for integrating a "5S" storage system;
- The surface of the computer cabinet and the storage cabinet is sloped 35°;
- The top for the computer cabinet includes a fan;
- 8" high.

Product #	Type of Top	W x D

R5MCA-24 __

Laptop or Keyboard Computer Support

- Allows for the use of a laptop computer under a cabinet, maximum dimensions of laptop monitor of 15";
- Store away under the cabinet when not in use;
- Inclines 17° when opened;
- Equipped with a neoprene mat to maintain laptop in place;
- Opens easily and smoothly.

Product #
RD47-2414

Storage Unit

- Installs underneath a storage cabinet with or without laptop or keyboard support;
- Can be installed underneath a computer cabinet with or without laptop or keyboard support;
- Provides extra storage space;
- Allows laptop or keyboard support to be lowered by 4";
- 24" wide.

3 ABOVE THE WORKSURFACE

Power Feed Panel with Upright

- Includes a power bar with 3 12A outlets for 15A circuit;
- 2 options available: 2 USB ports and/or perforations for air connection and a perforation (covered with a finishing panel) for installation of a telephone jack or computer network;
- Can be installed on RC35 and RC37 tops;
- Available for application with tech uprights (RD44);
- Available in stainless or painted steel.

Cover Panel with Upright

- Can be combined with a power feed panel when necessary, or used on its own to cover the support post legs for a perfect finish;
- Available for application with tech uprights (RD44);
- Available in stainless or painted steel.

0 : with uprights, painted steel
 1 : with uprights, stainless steel
 Widths : 30", 36", 42", 48" and 60"

10 : 3 - 12A outlets
 11 : 3 - 12A outlets, perforations
 12 : 3 - 12A outlets, 2 USB ports
 13 : 3 - 12A outlets, 2 USB ports, perforations

RC6_ _ _ _ 01

Ex.: RC61-361201 for a stainless steel power feed panel with uprights, 36" wide, with power bar with 3 - 12A outlets and 2 USB ports.

2 : with uprights, painted steel
 3 : with uprights, stainless steel
 Widths : 24", 30", 36", 42", 48" and 60"

RC6_ _ _ _ 01

Ex.: RC62-3001 for a painted steel cover panel with uprights, 30" wide.

10 = power bar with 3 - 12A outlets for 15A circuit.

11 = power bar with 3 -12A outlets for 15A circuit, perforation for air connection and a perforation (covered with a finishing panel) for installation of a telephone jack or computer network.

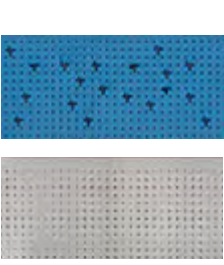

12 = power bar with 3 - 12A outlets for 15A circuit and 2 USB ports.

13 = power bar with 3 - 12A outlets for 15A circuit, 2 USB ports, perforation for air connection and a perforation (covered with a finishing panel) for installation of a telephone jack or computer network.

London City Chrysler Jeep Dodge (ON)

NEW DIMENSION
Perforated Panel

- Perforated every 1" c/c, the panel is compatible with WM9_ hooks (see page 88).

3: painted steel
 4: stainless steel

Widths: 24", 30", 36", 42" and 48"
 Heights: 15" (lower) and 20" (upper)

RC4 _- _ _ _

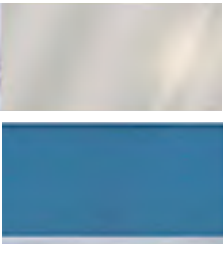

NEW DIMENSION
Louvered Panel for Plastic Bins

- Compatible with RG20 plastic bins (see page 49) and any other type of plastic bin with hanging lip available on the market.

Widths: 24", 30", 36", 42" and 48"
 Heights: 15" (lower) and 20" (upper)

RC45- _- _ _ _

Finishing Panel

- Gives an impeccable finish;
- Available in painted and stainless steel;
- Can be installed with or without overhead cabinets;
- Installing two panels one above the other (15" + 20") is possible and creates a walled effect which can be accessorized or not;
- Panels are compatible with the following accessories: multi-purpose support (RC51), LCD monitor support (RC52), mouse and keyboard support (RC53), telephone / document / laptop support (RC54).

Finishing Panel for Computer Supports

- Available in painted steel and stainless steel;
- Can be used with or without a cabinet on top;
- Two panels can be installed one above the other (15" + 20");
- Panels are compatible with the following accessories: (RC58-03 / RC58-21 / RC58-42 / RC58-62);
- Includes perforation for running cables through.

1: painted steel
 2: stainless steel

Widths: 12", 18", 24", 30", 36", 42" and 48"
 Heights: 15" (lower) and 20" (upper)

RC4 _- _ _ _

1: painted steel
 2: stainless steel

Heights: 15" (lower) and 20" (upper)

R: right side of workbench
 L: left side of workbench
 PR: to the right of the common post
 PL: to the left of the common post

RC8_-12 _- _ _ _

LCD Monitor Support

- Can be used to support most LCD monitors up to 21" available on the market;
- Installs on lower (15) finishing panels for computer supports (RC81/ RC82);
- Positioning of monitor anchors according to VESA 75 and 100 standards.

Product #	
RC58-03	Single screen

Laptop Support

- Usable tray surface: 14" W x 12" D;
- Installs on lower (15) finishing panels for computer supports (RC81/ RC82);
- The tray is equipped with non-slip strips (Velcro™) to ensure laptop doesn't move.

Product #	
RC58-42	

LCD Monitor, Keyboard and Mouse Support

- Usable surface of the keyboard and mouse tray: 23 5/8" W x 8 1/2" D;
- Installs on lower (15) and upper (20) finishing panels for computer supports (RC81/ RC82);
- Can be used to support most LCD monitors up to 21" available on the market;
- Positioning of monitor anchors according to VESA 75 and 100 standards.

Product #	
RC58-21	

NEW DIMENSION
Electronic Tablet Support

- Can be used to support most of the electronic tablets on the market;
- Installs on lower (15) finishing panels for computer supports (RC81/RC82);
- Safely holds the tablet in place;
- Rubberized pads prevents from scratching the device;
- The small version is compatible with tablets between 7 5/8" and 10" wide;
- The large version is compatible with tablets between 9 7/8" and 12 1/4" wide.

Product #	
RC58-62-01	Small
RC58-62-02	Large

4 CENTER

LCD Monitor Support

- Allows for a monitor to be installed, with anchor points on the back at a distance of 75 mm or 100 mm c/c (standard VESA 75 and 100), on RC41 / RC42 / RC43 / RC44 / RC45 panels;
- Equipped with an opening in the center to allow for management of wires and cords at the back of the support;
- Two positions, straight or 10° inclination towards the front to reduce light reflection.

Product #
RC52-20

Laptop Computer Tray

- Laptop with maximum dimensions of 14" W x 12" D can be used;
- Kept firmly in place by hooking onto RC41 / RC42 / RC43 / RC44 / RC45 panels;
- Series of folds in the front (3/4" surface), which can be used to rest palms of hands on while typing;
- Can be installed anywhere along the bay.

Product #
RC54-1412

Multi-Purpose Support

- Holds up to 4 aerosol cans;
- Also compatible with soda cans;
- Kept firmly in place by hooking onto RC41 / RC42 / RC43 / RC44 / RC45 panels;
- Can be installed anywhere along the bay.

Product #	Combination
RC51-120303	Panels only
RC51-120312	Panels and storage cabinets

Telephone or Document Holder

- Useable surface 14" W x 12" D;
- Includes clip to hold documents in place;
- Kept firmly in place by hooking onto RC41 / RC42 / RC43 / RC44 / RC45 panels;
- Can be installed anywhere along the bay.

Product #	Combination
RC54-1412	Panels only
RC54-141202	Panels and storage cabinets

Mouse and Keyboard Support

- Useable surface 24" W x 12" D;
- Series of folds in the front (3/4" surface), which can be used to rest palms of hands on while typing;
- Kept firmly in place by hooking onto RC41 / RC42 / RC43 / RC44 / RC45 panels;
- Can be installed anywhere along the bay.

Product #	Combination
RC53-2412	Panels only
RC53-241202	Panels and storage cabinets

GT-C2047S

5A Side – Tool Box

See pages 40-53

- Tool boxes can be ordered on their own or to complete a bay, found on pages 16-29;
- We offer 10 drawer heights and 6 cabinet heights;
- Impressive number of accessories are available: foam for tools, PVC liners, plastic bins, partitions and dividers, etc., all of which make organizing easier;
- Locking mechanisms are available on all of our models;
- Offered in both stationary and mobile versions.

5B Side – Reel Cabinet

See pages 54-57

- We offer a range of reel cabinets that vary according to the number of reels required and the layout;
- Our cabinets are equipped with a door or panel for easy access and maintenance;
- Removable drip tray included.

5C Side - Storage Unit

See pages 58-61

- Offers the possibility of securely storing personal items as well as an oil waste container or tech caddy;
- Offered in 48", 76" or 80" high, it can be used in a bay or on its own;
- Several configurations are available, with or without space for tech caddy, smart compact mobile "L" cabinet or oil waste container.

5D Side - Storage Unit - Locker

See pages 62-63

- Unit provides secure storage for technicians' personal belongings;
- Heights available: 48", 76" and 80". To ensure unit stability, the unit must be anchored to a workstation, a toolbox, a storage cabinet or to the wall;
- Several configurations possible, 1 door or 2 doors with or without ventilation holes.

GT-W048M1_

GT-W048M2_

The stainless and painted steel tops have a wood composite filler ensuring excellent impact resistance.

- The stainless steel top improves the appearance of the unit;
- The rubber mats are oil resistant and protect the work surface (available for painted and stainless steel tops).

CORNER WORKSTATIONS

INCREASE WORK SPACE AND STORAGE SPACE

Corner workstations allow for a more complete and integrated layout. They also help to optimize the space available for work and storage.

- Ergonomic 36" or 40" work surface height;
- Standard 30" worksurface depth;
- Choice of two configurations: with or without cabinet under the work surface;
- Leveling glides included in each model for a stable and level workstation;
- Designed to be placed against a wall or back to back;
- Must be anchored to two cabinets of the same height and depth, one on each side (RA30 or RA35).

To order, choose "WITH" or "WITHOUT" cabinet under the worksurface. Then configure your workstation. Options vary depending on the configuration chosen.

TEKZONE WORKSTATION HUTCH

SECURITY – FLEXIBILITY – EFFICIENCY

With the TekZone workstation hutch, you can create a personalized and organized workspace.

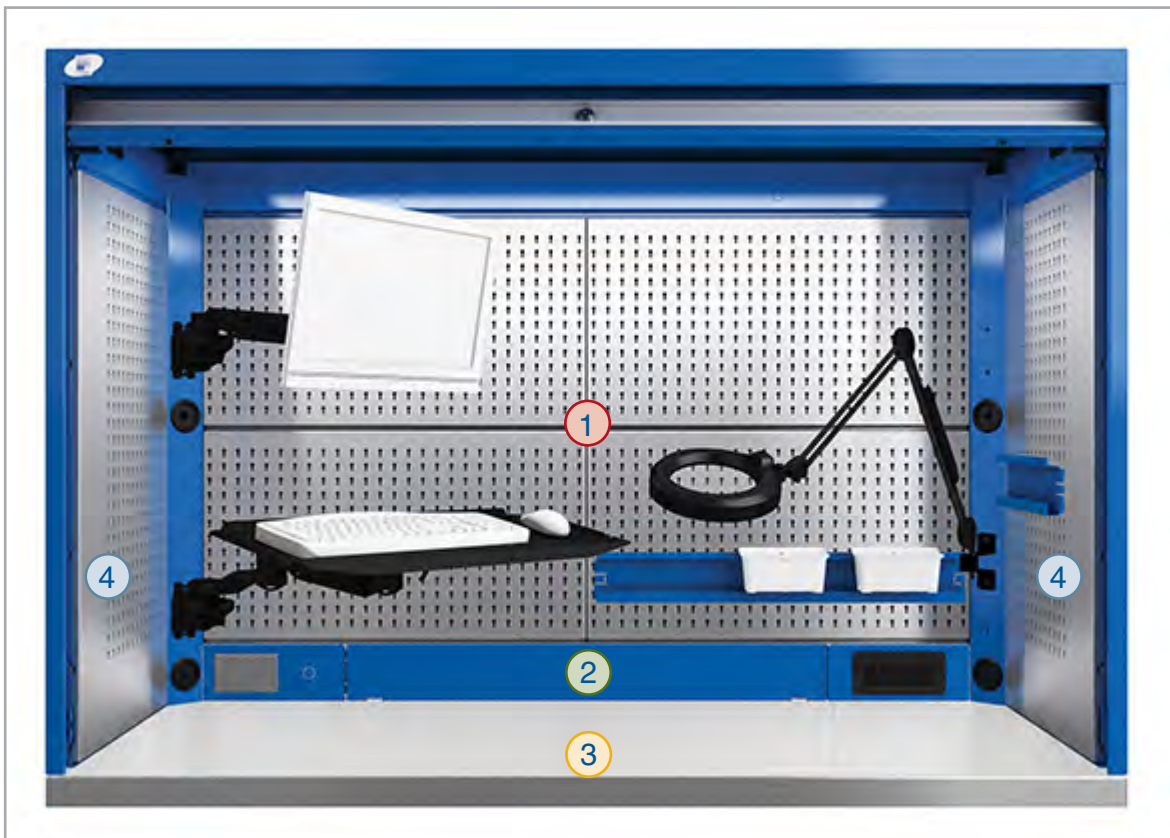

- The work area it provides is spacious and well lit. Each TekZone Hutch is equipped with an LED light with motion sensor so the workspace lights up as soon as you open the door.
- A wide range of accessories helps you to stay tidy by freeing up the work surface while keeping your essential tools close at hand.
- The ingenious door mechanism allows you to open and close the hutch easily, smoothly and safely. With the full-width handle, you can open the door with any hand position. The door is fitted with a lock to secure the contents of the hutch.

TEKZONE

4 easy steps

You can quickly and easily configure your own layout in just four steps.

TOOL BOXES

2 TOOL BOX BELOW THE WORKSURFACE

Acura of Pembroke Pines (FL)

The tool boxes can be ordered alone or as part of a proposal ② "Below the work surface" found on pages 16-29.

- The proposals include a locking mechanism that allows the user to lock all drawers at the same time.
- Individual locks and partitioning accessories are also available.

See pages 49-50

Here are a few of the possibilities:

Widths: 1 bank of drawers: 24" (C); 30" (D); 36" (E); 42" (G); 48" (H); 54" (J); 60"(K);
 3 banks of drawers: 48" (H); 54" (J); 60" (K);
 4 banks of drawers: 72" (L); 84" (U); 96" (R);

Heights: 34"; 38" (with 4" base);

Depth: 27".

Note: The 18" and 24" bank of drawer are always installed on the left side of a 54" and 60" wide housing.

Note: Add "S" to the end of the model number for stainless steel drawer fronts instead of painted steel drawer fronts.

- Note: 1. Offered in 48" W ; 54" W and 60" W
 2. 48" (H) = 1 bank 48" W, 2 at 24" W;
 54" (J) = 1 bank 54" W, 1 at 24" W, 1 at 30" W;
 60" (K) = 1 bank 60" W, 2 at 30" W
 3. 48" (H) = 1 bank 48" W, 2 at 24" W;
 54" (J) = 1 bank 54" W, 1 at 18" W, 1 at 36" W;

5A SIDE TOOL BOX

Gerry Wood Honda (NC)

Tool Boxes can be ordered separately or as a part of a Technician Workcenter found on pages 16-29.

- The proposals include a locking mechanism that allows the user to lock all drawers at the same time;
- Individual locks and partitioning accessories are also available.

See pages 49-50

Here are a few of possibilities:

Widths: 1 bank of drawers: 24" (C); 30" (D); 36" (E); 42" (G); 48" (H); 54" (J); 60" (K);
 3 banks of drawers: 48" (H); 54" (J); 60" (K);
 4 banks of drawers: 96" (R);

Depth: 27"

The 18" and 24" bank of drawer are always installed on the left side of a 54" and 60" wide housing.

Note: Add "S" to the end of the model number for stainless steel drawer fronts instead of painted steel drawer fronts.

Note 1: 48" (H) = 1 bank 48" W, 2 at 24" W;
 54" (J) = 1 bank 54" W, 1 at 18" W, 1 at 36" W;
 60" (K) = 1 bank 60" W, 2 at 30" W.

Widths: C, D, E, G, H, J, K
 Base: S = stainless steel; P = painted steel
 Fronts: Empty = painted steel; S = stainless steel

TOOL BOXES

MOBILE TOOL BOX

Lexus South Pointe (AB)

Tool Boxes can be ordered separately or as a part of a Technician Workcenter found on pages 16-35.

- Individual locks and partitioning accessories available;
- Many tool box accessories available;
- Every tool box has a locking mechanism that allows all drawers to be locked at the same time;
- The proposals include 6" polyurethane casters (total height: 7 1/2"), 2 rigid and 2 swivel with total-lock brake system. 4" polyurethane casters and 6" casters with rims are also available.

See pages 49-50

See pages 52-53

Distinctive Advantages

Activated by tilting handle up

Closes with a simple push

Lock-In Mechanism

- Each drawer is designed with a Lock-In Mechanism that is automatically activated when drawer is opened;
- Stops drawer from opening on its own.

Product #
A

Side Handle

- Large handle makes moving tool box easier.

Product #	Handle Real Depth
RB90-27	24"

6"

Polyurethane Casters

- The polyurethane casters move easily and silently without marking the floor;
- 4" and 6" casters available in rigid, swivel and swivel with total-lock brake system offering respectively a 420 lb. and 900 lb. capacity per wheel.

Product #	Type of Caster	Height	Total Height
RB81-01	Rigid	4"	5 1/8"
RB81-02	Swivel	4"	5 1/8"
RB81-03	Swivel with total-lock brake	4"	5 1/8"
RB84-01	Rigid	6"	7 1/2"
RB84-02	Swivel	6"	7 1/2"
RB84-03	Swivel with total-lock brake	6"	7 1/2"

6"

Castors with Rims (MAG)

- Aesthetic castors with 6" rims (MAG) are equipped with an aluminum core and are offered in rigid, swivel and swivel with total brake versions;
- Each caster has a 1 000 lb. capacity.

Product #	Type of Caster	Height	Total Height
RB85-01	Rigid	6"	7 1/2"
RB85-02	Swivel	6"	7 1/2"
RB85-03	Swivel with total-lock brake	6"	7 1/2"

Whether ordering one or one hundred tool boxes, our Specialists will help you build your perfect Tool Box.

DRAWER ACCESSORIES

The vast array of accessories available, all of which are compatible with each other, facilitate the organization and identification of your tools. No matter what their shape or size, we have the accessory you need. The unique shape of the R drawer is a Rousseau Metal inc. trademark. The drawer also has design registration.

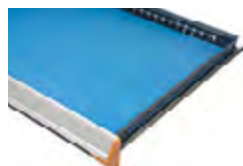

Foam for Tools

- Missing tools can be spotted quickly with oil-resistant and non-absorbent foam;
- The blue foam is 1/4" and the black self-adhesive foam is 1/2".

Note: Sold without cut-outs.

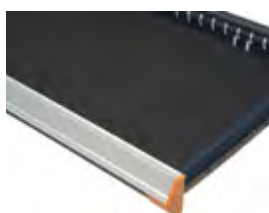

Product #	For Drawer
RG42-1827-01	18W x 27D
RG42-2427-01	24W x 27D
RG42-3027-01	30W x 27D
RG42-3627-01	36W x 27D

RG20-060602	6" x 6" x 2"
RG20-060603	6" x 6" x 3"

Drawer with Stainless Steel Front

- Brings a polished look to work benches and tool boxes;
- Excellent chemical and corrosion resistance;
- Brushed finish #4.

Note: Order a housing RA30 or RA35 and RF35 drawers with stainless steel fronts.

Ferrari Maserati Québec (QC)

Drawer Widths: 18, 24, 30, 36, 42, 48, 54, 60

Drawer Heights: 03, 04, 05, 06, 07, 08, 09, 10, 12, 14

RF35-__27__

Note: Drawer accessories are available in other dimensions. Please contact your customer service representative for further details.

TOOL BOXES

DRAWER ACCESSORIES

Partitions and Dividers

- Our front to back and left to right partitions have dividers that are clipped in place;
- The layout connection system (snap-on) keeps the dividers in place (clipped in without screws) and reduces noise caused by vibrations.

RG45-5427	54" x 27"
RG45-6027	60" x 27"

Stacking Cabinet

For storage of large and bulky items, choose a stacking cabinet.

- Shelves are adjustable every 1" c/c and have an edge that helps prevent items from falling;
- Available housing heights: 24" and 30";
- Comes with or without doors (steel or polycarbonate);
- Many dimensions available.

Note: When ordering, indicate the housing height and the type of door.

Ex.: R5HEG-24 03 for 36" W X 27" D X 24" H cabinet with double integrated doors.

Product #	W x D
R5HDG-___	30" x 27"
R5HEG-___	36" x 27"
R5HHG-___	48" x 27"
R5HJG-___	54" x 27"
R5HKG-___	60" x 27"

Side and Back Stop for Foldaway Shelf

Protects parts and tools from falling.

- Height: 1".

Product #	Width
RC01-15	15"
RC01-27	27"

Foldaway Shelf

Provides an additional worksurface.

- Folds easily to the side allowing tool box to be stored in smaller space;
- Rubber mat surface for added protection.

Product #	W x D
RC00-152701	15" x 27"

Slope Top

- Keeps the workspace clean and safe while reducing clutter;
- Seamlessly integrates with workstations;
- 16° slope angle;
- 8" high.

Product #	W x D
RC31-362708	36" x 27"
RC31-422708	42" x 27"
RC31-482708	48" x 27"
RC31-542708	54" x 27"
RC31-602708	60" x 27"

Doors

The doors allow you to securely and / or discretely store your items.

- Doors are offered in the following different combinations: single or double (double door can be sliding), in polycarbonate or full steel panel.

Product #	Type	Surface
RB62	single integrated,	steel
RB67	double integrated	steel
RB75	double with frame	steel
RB50	integrated sliding	steel
RB55	sliding with frame	steel
RB61	single integrated	polycarbonate
RB66	double integrated	polycarbonate
RB76	double with frame	polycarbonate
RB51	integrated sliding	polycarbonate
RB56	sliding with frame	polycarbonate

Leveling Glides

Adjusts height of tool box easily on uneven surfaces without emptying drawers (1 1/8" to 2" from the ground).

- Compatible with base;
- Sold in packs of 4.

Product

RA74-01

Adjustable Kick-Plate for Leveling Glide

- Provides an immaculate finish;
- Prevents dust from entering;
- Available in stainless steel only;
- Please contact your customer service representative for more details.

Hanging Side Cabinet - Side Access

For additional storage space for your tool box, consider our hanging side cabinets.

- Shelves adjustable every 1" c/c;
- Available with bottom and adjustable shelves;
- Dividers (SH52) can be installed on bottom and adjustable shelves;
- For tool box 27" D;
- 600 lb. capacity per cabinet;
- Choice of door. Complete the product number:
01: Solid door
02: Polycarbonate door

A DISTINCT SOLUTION

We know that every dealership is unique. This is why we offer a line of reel cabinets that vary depending on the number of service reels required and where they are placed.

- All of our cabinets are equipped with a door and/or a front access panel to facilitate maintenance (door has option of a lock);
- As well as a removable drip tray;
- Widths: 24", 30", 36" and 48";
- Heights: 30", 38" and 72" (without base);
- 4" base and quick access panel: painted or stainless steel.

Note: The reels are not sold by Rousseau.

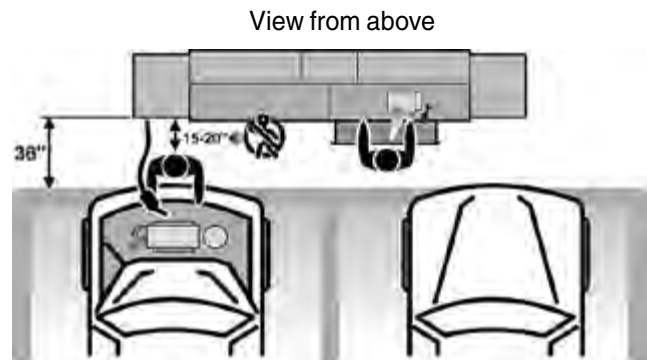

Considerations

In order to have the best configuration possible for a technician station, the organization of service reels is a very important factor to consider. When the service reels are integrated into the workcenter, we can help you determine the best place to store them.

After an analysis of the technician's movements between the workcenter and the vehicle, we can then recommend:

- Tool box in the technician's proximity; under the worksurface;
- Reel cabinets in direct line with the automobile, beside the worksurface. This way, the service reels do not block access to the worksurface;
- If a lot of different tools are used, we recommend that frequently used tools are stored below the worksurface, and the others in tool boxes at the sides of the worksurface.

The technician's overall efficiency is increased when there is fast and easy access to tools, and direct and secure access to service reels.

Note: It is your responsibility to check if there are any regulations regarding reel locations in your region.

76" H Cabinet

Available 24", 30" and 36" wide. The cabinet can store up to 6 reels.

- Includes a 6" drawer for meters or other storage and a removable drip tray above the drawer;
- Height: 76" (with 4" base);
- Can be used in a workcenter or as a unit on its own.

GT-REG720601S

4" base and quick access panel: *S* = stainless steel; *P* = painted steel

Ex.: GT-RCG720401 _

Note: We suggest, for a workstation with a work surface that is 40" H and including storage cabinets and finishing panels, to combine the 42" H (including base) reel cabinet with a 38" H tool box to obtain the same height as the workcenter (80").

5C STORAGE UNITS

TRULY VERSATILE AND FUNCTIONAL

Honda de la Capitale (QC)

Here is an interesting idea for your technicians: a unit that can safely store personal belongings in addition to an oil barrel, a tech caddy or a smart compact mobile "L" cabinet.

- Available in 48", 76" and 80" high. Can be used in a workstation or as a unit on its own;
- Two available widths to combine storage of diverse items. The 24" wide size allows you to combine it with the tech caddy or the smart compact mobile "L" cabinet. The 30" allow combination with the tech caddy, the oil barrel or the smart compact mobile "L" cabinet;
- Depth: 27";
- Comes with a lock on every door.

Note: Drawer (RF31) are not compatible with the storage units.

Storage units must be anchored either to the side of a workstation or to the floor.

Here are a few of the possibilities:

Ex.: GT-5R_ G76008_

Widths: C = 24"; D = 30"
Base: S = stainless steel; P = painted steel

Slope Top

- Keeps the workspace clean and safe while reducing clutter;
- Seamlessly integrates with workstations;
- 16° slope angle;
- 8" high.

5D STORAGE UNITS AND LOCKERS

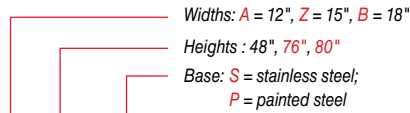

Complexe Volkswagen 440 (QC)

Storage units and lockers are an ideal solution for secure storage of technicians' personal belongings or to provide additional storage space. They also perfectly complement your workstations.

A wide selection of dimensions and options are available to meet your needs:

- Standard widths: 12", 15" and 18" (15" and 18" models will store a motorcycle helmet);
- Depth: 27";
- Heights: 48", 76" and 80" including the 4" base;
- Hanging zones for different hooks inside the door;
- Comes with a lock on every door;
- Optional accessories include: leveling glides, shelf dividers and slope tops.

Here are a few of the possibilities:

Ex.: GT-5R _ G _ 008 _

Storage units and lockers must be anchored to the wall or to the workstation.

TECH CADDIES

A COMPLETE AND INTEGRATED SOLUTION

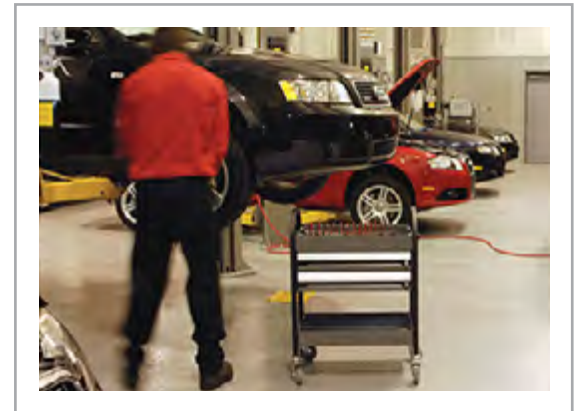

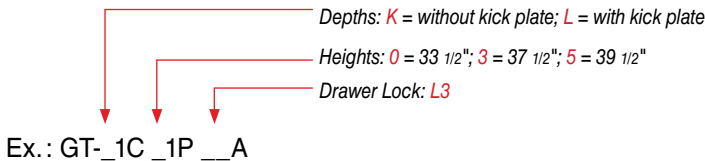

In order to carry out vehicle maintenance and repairs, a technician needs to have certain tools and replacement parts close by. Available in 2 depths: 21 5/8" and 24 5/8" and 3 heights: 33 1/2" , 37 1/2" and 39 1/2", you will appreciate the wide range of options that our tech caddy can deliver.

- Equipped with 2 shelves that have a capacity of 100 lb. each, for a total capacity of 300 lb. for the caddy;
- The 4" swivel casters (2 with total-lock brake system) ensure smooth and easy transportation on any surface;
- The 33 1/2" H model comes with an ergonomic handle that allows the tech caddy to be easily inserted under the worksurface;
- The caddy has been designed to be stored under the worksurface (33 1/2" H and 37 1/2" H) or in a storage unit (39 1/2" H) when it is not needed;
- The Tech Caddy of 21 5/8" deep is designed to be stored under the worksurface, behind the discretion panel with a kick plate (RB59 / RB60) or can be integrated in a side storage cabinet with a kick plate (RD81 / RD82) or on its own.

Here are the possibilities:

Width: 15 5/8";
 Depths: 21 5/8" (L); 24 5/8" (K);
 Heights: 33 1/2" (0); 37 1/2" (3); 39 1/2" (5).

Audi Sainte-Foy (QC)

Numerous Advantages:

Drawer

The addition of one or two 4" drawers gives you even more storage space.

- The drawers are mounted on precision ball bearing glides and have a capacity of 50 lb.;
- Each drawer is equipped with an integrated Lock-In mechanism. When you grip the ergonomic handle, the drawers open easily by simply tilting the handle up.

Security Cover for Shelf

The security cover can be locked (lock included) and opens 270° for unblocked access to the worksurface.

Drawer Lock

Allows you to lock the drawer with one key that is used for different solutions (security cover for caddy shelf, tool box, storage cabinet, etc.).

- Order by completing the model number by L3.

PVC Liner

Protects items stored in drawers or on shelves.

Product #	For	Tech Caddy Depth
RK45-2718-01	Drawer	21 5/8"
RK40-2718-01	Shelf	21 5/8"
RK45-3018-01	Drawer	24 5/8"
RK40-3018-01	Shelf	24 5/8"

TECH CADDIES

Foam for Protection

Oil-resistant and non-absorbent foam protects items stored in drawers or on shelves (1/4" thick).

Product #	For	Tech Caddy Depth
RK46-2718-01	Drawer	21 5/8"
RK41-2718-01	Shelf	21 5/8"
RK46-3018-01	Drawer	24 5/8"
RK41-3018-01	Shelf	24 5/8"

Foam for Tools

Missing tools can be spotted quickly with this oil-resistant and non-absorbent foam in drawers or on shelves.

- The blue foam is 1/4" and the black self-adhesive foam is 1/2".

Product #	For	Tech Caddy Depth
RK47-2718-01	Drawer	21 5/8"
RK42-2718-01	Shelf	21 5/8"
RK47-3018-01	Drawer	24 5/8"
RK42-3018-01	Shelf	24 5/8"

Note: Sold without cut-outs.

Storage Unit

See pages 58-61

The storage unit is perfect for storing the Tech Caddy or the Smart Compact Mobile "L" Cabinet as well as having sufficient space for storing personal or other items.

- Available in different heights and configurations;
- Accessories available: fixed or roll-out shelf, coat rail.

Hideaway Door

Allows Tech Caddy to be integrated into the service unit.

- Handle allows panel to be easily opened;
- Kick plate offers as an option.

Note: Add **L3** to the end of the product number to order a hideaway door with lock.

Note: Add **L** to the end of the product number to have the hinges on the left or **R** for the hinges on the right.

"L" COMPACT CABINETS

A VERSATILE AND ADVANTAGEOUS ALTERNATIVE

The "L" compact cabinet, in both the mobile and fixed versions, is an advantageous alternative for technicians looking for a storage system designed for storing items that are not as heavy.

- Central locking mechanism (L3), that allows the user to lock all drawers at the same time, offered as an option;
- Optional drawer lock-in mechanism (B) stops drawers from opening on their own;
- Width of the cabinet: 18";
- Several drawer heights: 3", 4", 5", 6", 8" and 12";
- Drawers on superior quality slides, each with a 100 lb. capacity.

Smart Compact Mobile "L" Cabinet

With the mobile version, technicians can have all of their tools within reach when repairing vehicles. In addition to providing more storage space than the tech caddy, it is also completely closed in. Smaller and lighter than the tool box, it is easy to operate.

Ex. : L3BB_-3402_ _ _

Note: The 21" D x 33 1/2" H technician's smart compact mobile "L" cabinet can be easily stored under the work surface. However, the hideaway door (RB52) has to be 21", 24" or 27" wide.

BASIC WORKBENCHES

A SOLUTION FOR EACH AND EVERY NEED

Lexus South Pointe (AB)

We have a solution for every need whether you are looking for a basic workbench with two legs and a top, or a specialized workbench, fixed or mobile.

The painted or stainless steel worksurfaces are available in a wide choice of dimensions so you can have a single or double workbench tailored to your requirements.

Plus, our solutions provide you with unlimited layout possibilities, both above and below the worksurface.

Here are a few of the possibilities:

Open Workbench – Fixed or Mobile

With its sturdy construction and polished appearance, this table can fit in almost any environment.

- Height: Fixed model = 34", Mobile model = 35";
- Complete the product number with **A** for the fixed model and **W** for the mobile version (included a pair of 4" rigid casters and a pair of 4" swivel casters with total-lock brake system);
- Available with either painted or stainless steel top.

W x D	Painted Steel	Stainless Steel
60" x 30"	WS_1031	WS_6031
72" x 30"	WS_1035	WS_6035
72" x 36"	WS_1039	WS_6039

Mobile Workbench with Storage Unit

You can perfectly combine a worksurface, mobility, and storage unit.

- Height: 38";
- Offered with 1 - 3" drawer and 1 - 6" drawer;
- Equipped with an edge on the surface to protect your tools and parts from falling;
- Available with either painted or stainless steel top.

W x D	Painted Steel	Stainless Steel
60" x 30"	LJ1013	LJ6013

Closed Table with Sliding Doors and Closed Legs

Allows safe and neat storage of various objects with a closed off space under.

- Height: 34";
- Includes 2 shelf levels (1 single and 1 double);
- Available with either painted or stainless steel top.

W x D	Painted Steel	Stainless Steel
60" x 30"	WSA1170	WSA6170
72" x 30"	WSA1171	WSA6171
72" x 36"	WSA1172	WSA6172

BASIC WORKBENCHES

Workbench with Sliding Door - Fixed or Mobile

Allows safe and neat storage of various objects.

- Height: Fixed model = 34", Mobile model = 35";
- Includes 2 shelves (1 single and 1 double);
- Complete the product number with **A** for the fixed model and **W** for the mobile version (includes a pair of 4" rigid casters and a pair of 4" swivel casters with total-lock brake system);
- Available with either painted or stainless steel top.

STAND OUT FROM THE COMPETITION!

Rousseau offers a personalized engraving service for stainless steel panels on GT workstations, service advisor desks and corner service counters.

Panels can be personalized with a logo, a name or even a slogan. The service uses an engraving process and/or insertion of a mirror effect. It is a highly durable, premium-quality process that creates an immaculate finish.

- Up to three different colors can be combined;
- For maximum impact, the design is always centered (vertically and horizontally);
- Existing panels can be replaced with new personalized panels.

Several options to choose from

Color-filled engraving

Color-filled engraving + mirror finish effect

Mirror finish effect, then color-filled engraving

Available for:

Personalizable area: 11 1/2"W x 15"H

PARTS DEPARTMENT

ARE YOU SHORT ON SPACE AND TIME?

With Rousseau solutions, you can save a considerable amount of space while increasing the productivity of your employees.

At Rousseau, we know that time is money. We also realize that space is a valuable commodity. Since you handle parts of varied sizes and shapes, you need a solution that is both adaptable and cost effective.

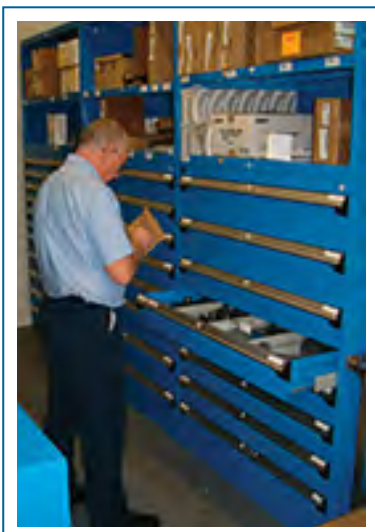

We offer a complete and integrated storage solution for your parts, no matter what their shape or size. Our drawers in shelving system, specialized racks (for mouldings, bumpers, exhaust pipes, tires, etc.), and our workstation system are all adapted to your reality, the automotive industry.

One Solution for a Multitude of Applications

For more than 65 years, we have been experts in workspace storage and organization. Through our numerous accomplishments, we have acquired much expertise in parts departments. This is our guarantee to you that our product line can respond to the strictest criteria. All of our products are designed, manufactured and rigorously tested in North America to meet the highest standards of engineering and quality.

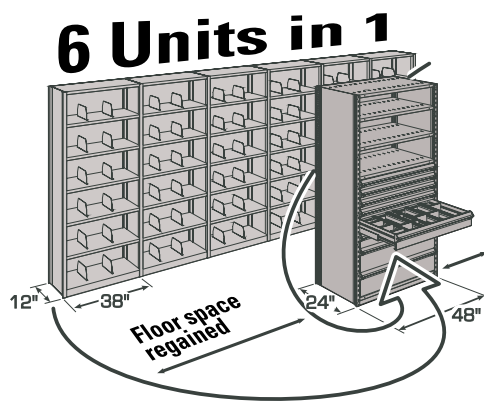

The strength of our system is that it adapts to your environment and evolves with your needs. With the numerous dimensions and accessories offered, you can create your own customized layout to complement the structure of your building.

Drawers in Shelving

Did you know that the contents of 6 shelving units (38" W x 12" D) can all be stored in one Rousseau shelving unit with drawers that are 48" W x 24" D? When you add drawers to your shelving, you can recuperate up to 50% to 70% of your storage space. Using the Rousseau drawer will help you reduce the size of your parts department, leaving more room available for money-making departments like the service department or the showroom. You will also be able to find your parts quickly thanks to our partitioning and labeling accessories. Great savings that will fulfill all of your expectations!

Main Advantages:

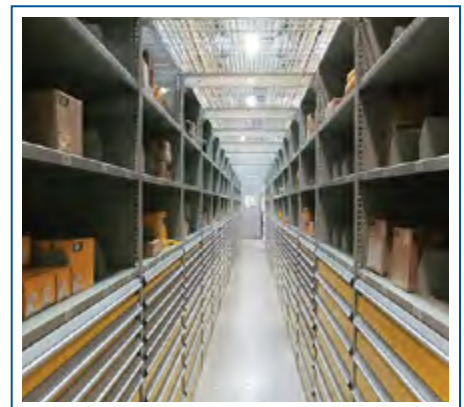

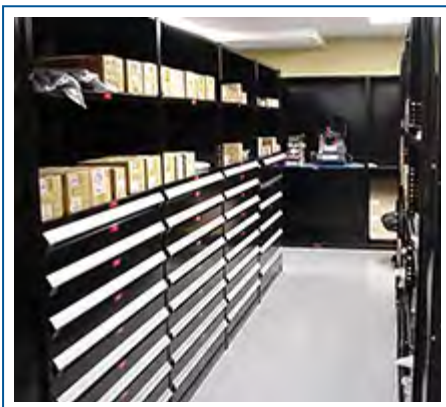

- More parts stored in the same space;
- Less time spent searching for parts;
- Less time your mechanics spend waiting at the service counter;
- More time for vehicle maintenance;
- More time for your customers!

Rousseau drawers add value to your existing equipment. They can be installed in more than 35 brands of shelving on the market.

"5S" Storage for Lean Manufacturing

The Japanese "5S" method can be integrated in the various storage solutions offered by Rousseau. This method, which enables you to organize the work area efficiently by assigning a specific place to each tool, can improve the work environment and employee morale while increasing functionality. A new section on this system has been added to the brochure in order to present the principal accessories and components that will help you organize your work environment efficiently.

SMALL AND MEDIUM PARTS STORAGE

DRAWER BENEFITS

With the Rousseau solution, you eliminate problems such as poorly-lit, under-used shelving and lost and misplaced items caused by inadequate storage. Let us help you organize your parts!

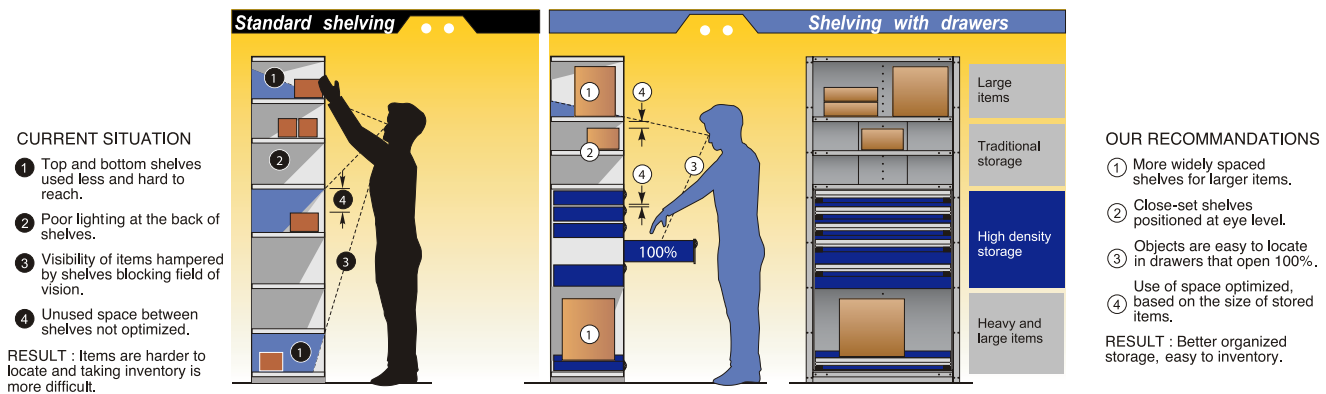

The Rousseau drawer is the ideal solution for the storage of small parts and high-turnover items. With this system, a wide variety of parts can be stored and readily accessible while maximizing the use of available space. This decreases the amount of time walking to get your parts, so you also save valuable time.

To maximize the possibilities of the system, use the drawer for all parts measuring 4" W x 4" H or less (Ex.: spark plugs, lightbulbs, oil filters). This way, there is no wasted space behind your shelves. By maximizing the use of your drawers, you will recover up to 70% of the space where shelving alone is used.

The unique shape of the R drawer is a Rousseau Metal inc. trademark.

How can you economize by using drawers?

- By using the total height between the shelves;
- By using the entire depth of the shelving.

SMALL AND MEDIUM PARTS STORAGE

Shelving with Drawers

As storage specialists, we recommend using shelving with drawers for small and high-turnover parts. The Rousseau drawer can be installed in more than 35 brands of shelving on the market, allowing you to keep your existing shelving while benefiting from increased storage capacity.

If you are planning a new installation, our Spider® Shelving system is the most integrated and adaptable product of its kind on the market. The unique design makes it easy to assemble and easy to use.

The unique shape of the Spider® post is a Rousseau Metal inc. trademark.

SMALL AND MEDIUM PARTS STORAGE

Drawer Accessories

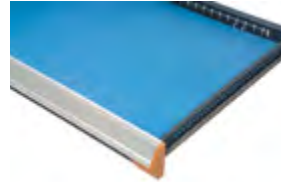

Our drawers come with a wide array of accessories, all of which are compatible with each other, facilitating the organization and identification of parts. We have an accessory to accommodate the storage of parts, no matter what their shape or size!

Foam for Tools (RG42)

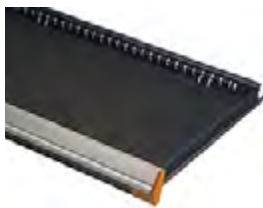

- Missing tools can be spotted quickly with oil-resistant and non-absorbent foam;
- The blue foam is 1/4" and the black self-adhesive foam is 1/2".

Note: Sold without cut-outs.

Foam for Protection (RG41)

- The foam is 1/4" thick and protects stored material from impact and from damage caused by metal rubbing against metal;
- Oil-resistant and non-absorbent.

PVC Drawer Liner (RG40)

- The non-skid surface protects stored material (compatible with partitions and dividers);
- Thickness: 3/32";
- Sold by drawer dimensions or in rolls 7' wide x 100' long.

Partitions and Dividers (RG00 / RG01 / RG10)

- Our front to back and left to right partitions have dividers that are clipped in place;
- The layout connection system (snap-on) keeps the dividers in place (clipped in without screws) and reduces noise caused by vibrations.

Plastic Bins (RG20)

- Our plastic bins simplify storing, moving and management of small items;
- The 45 degree angle allows for easy identification and removal of bins;
- They have been designed for 3" and 4" high drawers.

Note: partitions and dividers also available (RG22 / RG24).

Label Holder for Dividers or Plastic Bins (RG51 / RG52 / RG54 / RG55)

- Can be used with dividers or plastic bins;
- Once in place, the label holders adhere well and do not come off when removing objects;
- Contents of each compartment can be easily identified.

Note: Paper strips (RG53) are available in packs of 200.

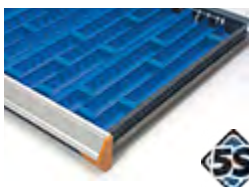

Lock-In Mechanism (A)

- Stops drawer from opening on its own;
- Designed to make it easy to open and close the drawer with one hand only.

Drawer Lock (L3)

- Allows one drawer to be locked;
- Compatible with all drawer dimensions.

Storage Trays (RG35)

- Useful in storing and protecting long objects;
- Blue color for easy retrieval of parts;
- Designed for 3" and 4" high drawers.

Handle Protector (RF70)

- Protects identification labels from dust, grease and dirt;
- Made of transparent matte finished plastic that eliminates glare;
- Installs by clipping onto the drawer or roll-out shelf handle.

Note: Refer to pages 49 and 50 for complete product numbers.

SPECIALIZED STORAGE

A SOLUTION FOR EVERY NEED

How can you store mufflers, bumpers, body parts, batteries, tires and other parts of varied shapes? The solution is simple: Rousseau specialized storage units. These storage units provide efficient and orderly organization of your parts department.

SRP0404

Hanging Rack for Various Parts

Perfect for hanging exhaust pipe and all other types of objects.

- The rack is available with 1 or 2 rails and includes hooks;
- 3 steel decking levels accommodate storage of bulky parts;
- Extra hook (SR63-02).

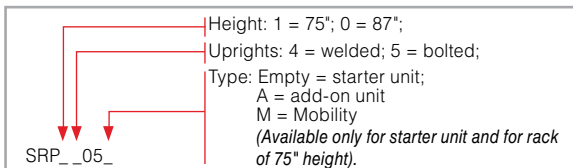

SRP2404

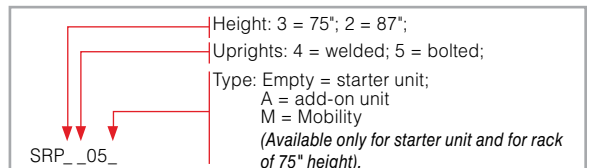

Double Hanging Rack for Various Parts

Easily find what you are looking for! The two level hanging rack accommodates storage of parts of different shapes and sizes.

- The rack is available with 2 or 4 rails and includes hooks;
- 3 steel decking levels accommodate storage of bulky parts;
- Extra hook (SR63-02).

MEDIUM PARTS STORAGE

MUCH MORE THAN A SIMPLE SHELVING

Our Spider® Shelving system is perfect for most requested items, special orders, as well as parts under warranty. Its unique design guarantees easy configuration and easy to add accessories.

- The only system that allows you to alternate the use of shelves (medium parts) and steel decking (large parts);
- Our common post reduces the number of posts needed by 25%, leaving more space for storage;
- When planning tomorrow's needs today make Spider® Shelving the foundation for your multi-level shelving system.

See pages 94-95

Shelving for Medium Parts

SRP0142

Spider® Shelving surpasses industry standards. You will appreciate its design when you discover how easy it is to reconfigure. It is also characterized by its sturdiness and the vast array of accessories available.

- Adding drawers gives you a combined storage system that allows you to store both small and bulky parts;
- Box type shelves adjust at every 1" c/c.

MEDIUM PARTS STORAGE

Heavy-Duty Hooks

Can be used to store various types of parts and tools adequately on the utility panels system (SH67, SH68 and SH69).

- Capacity: 50 lb. distributed evenly on each hook;
- Available in a square or round shape.

Product #	Type of Hook	Length
WM9A-06	Square	6"
WM9A-12	Square	12"
WM9B-06	Round	6"
WM9B-12	Round	12"

Support for Cans

Can be used to organize and store various aerosol cans.

- Clips onto SH67, SH68 or SH69 panels;
- Also suitable for beverage cans;
- The 6" wide model can be used to store 2 cans (standard sizes) and the 15" wide model can contain 5 cans.

Product #	W x D x H
WM9D-06	6" x 3" x 4"
WM9D-15	15" x 3" x 4"

Support for Plastic Bins

Facilitates the integration and management of small parts in a "5S" storage system.

- Clips onto SH67, SH68 or SH69 panels;
- Can be used to include plastic bins (RG20).

Product #	W x H
WM9C-06	6" x 3"
WM9C-15	15" x 3"

Tiltable Shelf

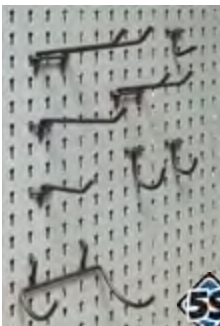

Designed to support parts, plastic bins and boxes.

- The shelf can be angled at 15° to easily find what you're looking for;
- The shelf is reversible and its edge may serve as a back stop for plastic bins or binders.

Product #	W x D

MEDIUM PARTS STORAGE

Shelf Divider

Shelf divider is utilized to subdivide shelves and stored items.

- The dividers are installed without tools and are easily reconfigured.

Product #	Type	D x H
SH50-1809	Shelf Divider	18" x 9"
SH50-1815	Shelf Divider	18" x 15"
SH50-2409	Shelf Divider	24" x 9"
SH50-2415	Shelf Divider	24" x 15"
SH52-1806	Partial Divider	13 1/8" D for 18" D shelves
SH52-2406	Partial Divider	19 1/8" D for 24" D shelves

Spool Support

The design allows for pivoting of the bar to facilitate changing spools.

- The bars have a 50 lb. capacity and are 3/4" in diameter (compatible with most spools on the market).

Product #	# of Rails	W x D
SH72-3618-01	1	36" x 18"

SH72-4818-02	2	48" x 18"
SH72-4824-01	1	48" x 24"
SH72-4824-02	2	48" x 24"

LED Light for Spider® Shelving

- Eliminates shaded areas between shelves.
- Can be installed under shelves;
- Casts brighter light than fluorescent tubes and is more energy efficient.

Product #	Fits on
SH95-01	30" or 36" W shelves
SH95-02	42" or 48" W shelves

Label Holder for Shelf

It is available magnetic or self-stick and has a wide surface so it adheres well to the shelf.

Note: Paper strips are available in packs of 200 (RG53).

Product #	Type	W x H
SH82-600	Magnetic Label Holder	6" x 1"
SH81-36	Self-Adhesive Label Holder	36" x 1"
SH81-48	Self-Adhesive Label Holder	48" x 1"

Leveling Glides Kit

Serves to adjust the height of the Spider® shelving unit 1 1/4" to 2 1/8" on uneven floor surfaces.

- Maximum capacity of 750 lb. / glide;
- Restrictions:
 - Offered for 99" high shelving and less
 - Compatible with SR posts and SR uprights only
 - Not compatible with (RF32 / RF36) drawers, (RF41 / RF45) roll-out shelves, the SH28 base and the SH posts and SH uprights;
- Sold in pairs.

Product #
SR49-01

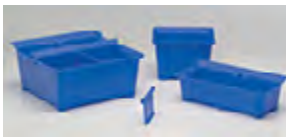

Flipper Door for Spider® Shelving

Perfect for safe storage of small quantities and for storing confidential files.

- The 14" H door allows storage of folders with tabs. The 16" H door will allow you to store binders;
- Order by adding the door height to the product #: **14", 16", 17" or 18"**.

Product #	W x D x H
SH85-3618_L3	36" x 18"
SH85-3624_L3	36" x 24"
SH85-4818_L3	48" x 18"
SH85-4824_L3	48" x 24"

Plastic Bin

Our plastic bin makes storing, moving, and inventory of small parts easier.

- The edges are angled 45° for identifying contents and easy removal of parts;
- Compatible with louvered panels SH65 / SH66 and support for plastic bins WM9C.

Note: Partitions and dividers also available (RG22 / RG24).

R5SEE-871813

Stacked Solid Doors

Installed in the top part of Spider® Shelving, they are designed to be installed over a bank of drawers.

- Ideal for storage and keeping work areas tidy;
- They are perfect for storing expensive parts or parts less in demand;
- Doors open fully on 180° hinges, allowing shelving contents to be visible and accessed easily;
- Sturdy handle includes a lock;
- To know the possible dimensions, see tech sheet S64

R5SEE-871815

Stacked Polycarbonate Doors

Installed in the top part of Spider® Shelving, they are designed to be installed over a bank of drawers.

- Ideal for storage and keeping work areas tidy;
- Polycarbonate surface allows shelving contents to remain visible and has excellent impact resistance;
- Ideal for storing expensive parts or slow-moving inventory;
- Doors open fully on 180° hinges, allowing shelving contents to be visible and accessed easily;
- Sturdy handle includes a lock;
- To know the possible dimensions, see tech sheet S64.

Important: Refer to tech sheet S64 Spider® Shelving Doors-Layouts and dimensions for recommended configurations and possible combinations.

Doors' Advantages

R5SEE-871807

R5SEE-871811

Door opens by turning handle left or right.

Door closes with a simple push.

LARGE PARTS STORAGE

Mini-Racking for Large Parts

Mini-Racking is designed for storing heavy and bulky parts. Its many dimensions (W" x D" x H"), combined with a choice of decking, make it possible to have a custom configuration tailored to your own needs.

Rousseau offers 3 possibilities: steel decking, wire-mesh decking, and wood decking.

Note: The steel decking has a greater capacity than wood.

Note: Wire decking reduces fire hazard.

Important: For wood decking, Rousseau supplies the structure: uprights and beams. The decks must be supplied by the customer.

Mini-Racking with Choice of Platforms

Steel

To order a unit with steel shelves, complete the product number with an **S**.

SRE5127S

SRB5127S

Wire

To order a unit with wire shelves, complete the product number with a **W**. Available for units 48", 60", 72" and 96" W and 24", 36" and 48" in depth.

SRE5127W

SRB5127W

Wood

To order a unit without decking (Ex.: for use with wood panels), leave the number as is.

SRE5127

SRB5127

How to Order

When ordering, model numbers must be completed as follows:

	Starter unit	Add-on unit
Bolted uprights	<u>D</u>	<u>A</u>
Welded uprights	<u>E</u>	<u>B</u>

- S Steel decking
- W Wire decking
- Without

Example: SR_5001_

Example: SRD5001S

For a starter unit (48" W x 18" D x 75" H) with bolted uprights, including steel decking.

Mini-Racking with Medium and Heavy-Duty Beams

Mobile Mini-racking for Large Parts

Mobile Mini-racking is designed to move parts, tools, heavy or bulky items. Rousseau offers 3 possibilities: steel decking, wire-mesh decking and wood decking.

- Proposals include the mobile Mini-racking base with 4" casters, 2 swivels with total-lock brake system and 2 rigids;
- Models with a 36" or 48" wide base include the handle for mobile Mini-racking;
- Capacity: 1000 lb. per base;
- All models are quick and easy to assemble and can be disassembled when not in use.

Note: The steel decking has a greater capacity than wood.

Note: Wire decking reduces fire hazard.

Important: For wood decking, Rousseau supplies the structure: uprights and beams. The decks must be supplied by the customer.

Mobile Mini-Racking with Choice of Platforms

Steel

To order a unit with steel shelves, complete the product number with an **S**.

Wire

To order a unit with wire shelves, complete the product number with a **W**;
Not compatible with 18" depth.

Wood

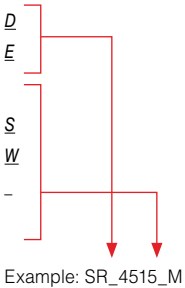

To order a unit without decking (Ex.: for use with wood panels), leave the number as is.

How to Order

When ordering, model numbers must be completed as follows:

- Bolted uprights **D**
- Welded uprights **E**
- Steel decking **S**
- Wire decking **W**
- Without **-**

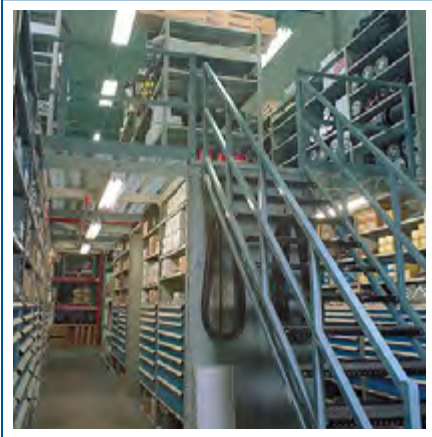

Example: SRE4515SM

For a unit with welded uprights 36" D x 75" H, including steel decking and mobile base of 60" W x 36" D with 4" casters.

MULTI-LEVEL SHELVING SYSTEM

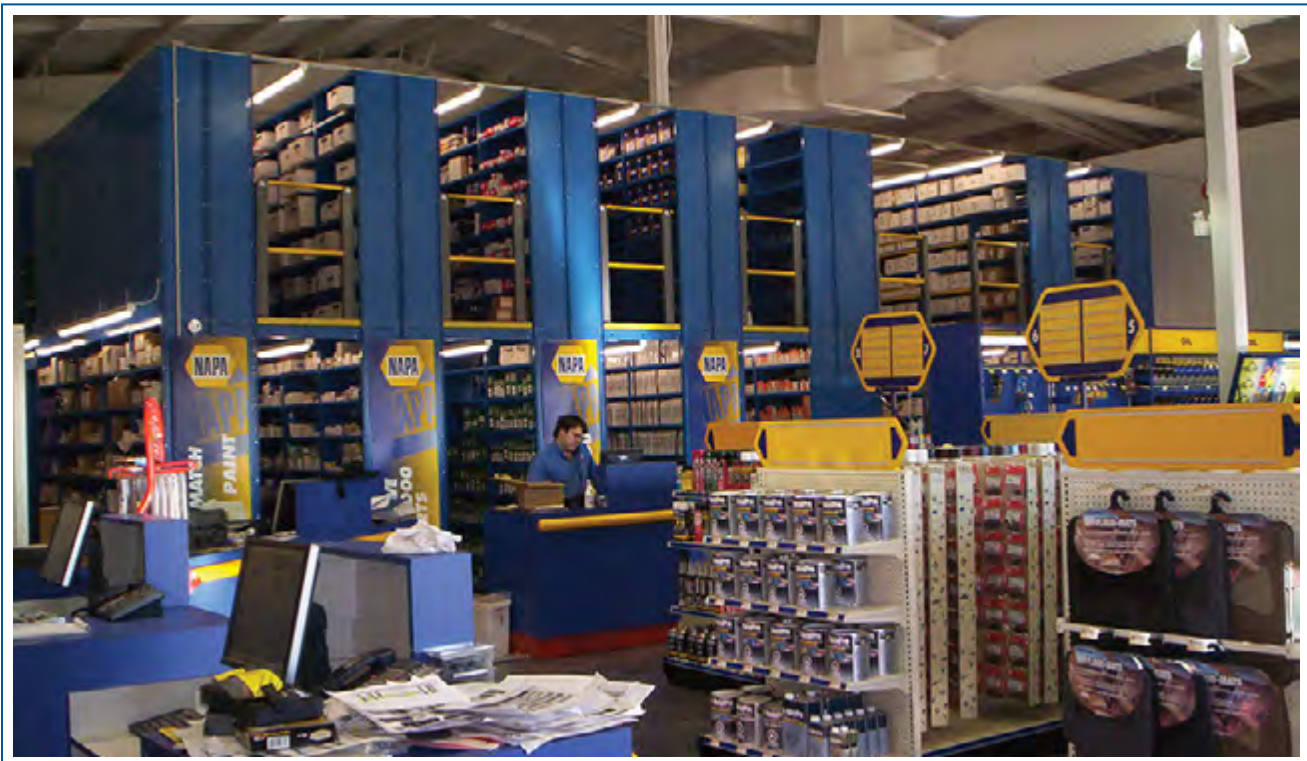

SHORT ON SPACE?

Are you experiencing a lack of space? Before building on an addition, consider Rousseau multi-level shelving.

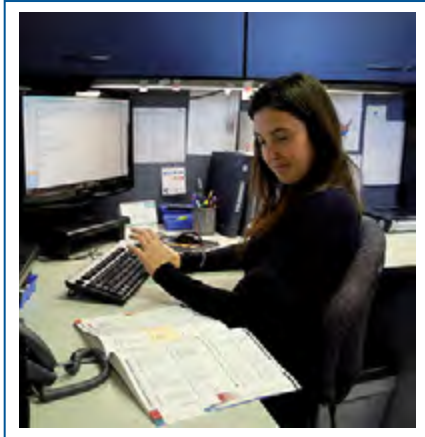

Our specialists will suggest solutions that will avoid obstacles at your establishment such as beams, columns, doors, ventilation ducts, building structure and sprinkler systems.

Our system maximizes your storage possibilities by combining shelving, (with or without drawers), mini-racking and specialized storage (tire and battery racks, etc.).

MULTI-LEVEL SHELVING SYSTEM

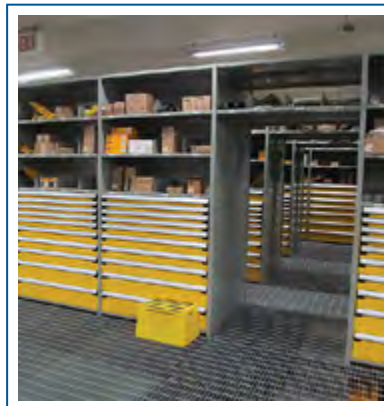

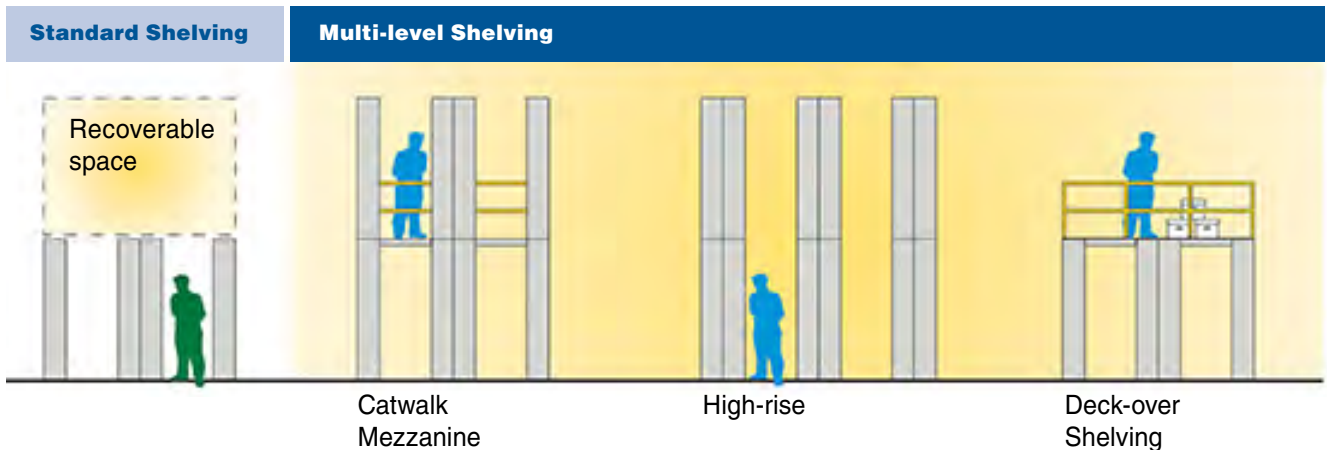

EXPERTISE THAT LEAVES NOTHING TO CHANCE

The multi-level shelving system is subject to standards and recommendations in earthquake-prone regions.

The Rousseau team is available to assist you in determining your shelving and sway bracing for multilevel shelving system projects.

Call us, and our experts will evaluate your requirements and specifications to deliver a system that will respond to your needs.

WORKSTATIONS

OPTIMIZE YOUR WORKSPACE

In order to optimize your work area, Rousseau offers workstations that are tailored to your needs. Whether you are looking for a basic work table or a cabinet under a work surface, we have many options to propose to you. There is an infinite variety of lay-outs for our workstations, both above and below the work surface. The vast range of accessories available means the number of possible configurations is unlimited.

With their heavy-duty and ingenious design, our workstations will meet all of your expectations. You will appreciate their ability to satisfy your varied needs: computer station, workstation for copying keys, packaging or shipping and much more.

Basic Workbench

A high-quality bench that offers numerous dimensions and work tops.

- For a stationary table, complete with an **A**;
- For a mobile table, complete with a **W**.

WSA2031

Workbench with Storage

Ideal for storing tools, office supplies and other routine items.

- Stationary bench with 27" deep cabinet on a 2" recessed base;
- 2 - 4" drawers;
- 1 - 6" drawers;
- 1 - 12" drawer.

MAXIMIZE YOUR SERVICE

In order to provide rapid and efficient service to your internal and external clients, make sure you have the most asked-for parts on hand, directly at the service counter! Adding drawers under the work surface provides high-density storage. You can also reach more parts without having to move. Moreover, we suggest that you combine shelves and drawers to maximize the efficiency of the storage for parts with a high turnover.

Rousseau service counters have been designed to be welcoming for your customers while also providing an efficient and ergonomic workspace. You will love the distinctive look of our new corner service counters. With an attractive finish and the option to personalize stainless steel front panels, you can proudly display your logo and highlight your brand image. See page 77 for more details.

Corner service counter, configuration 1830: **NEW** 15 drawers

This counter allows you to keep frequently used parts within arm's reach. With a 24" wide leg space, it is easy to work at the counter or store the chair as needed.

- Left section (24"W):
 - 3- 4" drawers
 - 1- 6" drawer
 - 1- 8" drawer
- Left right (2 x 36"W):
 - 3-4" drawers x 2 = 6- 4" drawers
 - 1- 6" drawer x 2 = 2- 6" drawers
 - 1- 8" drawer x 2 = 2- 8" drawers
- Center section (24"W):

CABINET FOR SPECIALIZED TOOLS

UNEQUALED FLEXIBILITY

We know how valuable your specialized tools are and how important it is to keep them protected and secure. Our drawer accessories are designed to protect your valuable tools no matter what their shape or size, while also providing easy access. Furthermore, all of our locking mechanisms are secure and provide control of inventory.

The Rousseau cabinet comes in 5 different widths, each offered in different depths, for a total of 11 combinations, each available in 6 heights. Add to that 10 drawer heights and you have an incredible choice of layout possibilities. No matter what tools you have, we can store them! Here are a few possible options:

Note: Lock included on each cabinet.

Important: Many accessories for drawers are available.

"5S" Storage for Lean Manufacturing

EFFICIENT ORGANIZATION OF THE WORK SPACE

The Japanese "5S" method focuses on sorting, straightening or setting in order, sweeping or shining, standardizing and sustaining the practice. This method ensures that the various tools and parts are stored according to their purpose and the frequency with which they are used, in a manner that is clear and well identified. Each item has its place, which reduces wasted time and lost items. With this method, the work environment is standardized so as to ensure the best organization possible while enhancing working conditions and team morale. Moreover, this means that less time and money are wasted. Here are several Rousseau accessories that will enable you to integrate the "5S" method for lean manufacturing in the storage solution for the parts department of your automobile dealership.

Note: Our "5S" logo is used throughout the brochure to identify Rousseau products that can easily integrate a "5S" methodology.

Wall Panels

- Can be used to organize a wide variety of items of different sizes and weights in the same system;
- Compatible with light-duty and heavy-duty hooks, vinyl rub-on identification decal, support for plastic bins, support for cans and tiltable shelf;
- Installation fits with the 16" c/c architectural standard;
- A finishing piece (WM58) is available as an option to provide a perfect look at the right side.

Product #	W x H
WM57-1618	16" x 18"
WM57-1624	16" x 24"
WM57-1636	16" x 36"
WM57-1648	16" x 48"
WM57-1672	16" x 72"

End Bracket

- Designed to provide a more finished look to the wall panel system;
- Closes the panel at the right;
- Order a finishing part that is the same height as the panel;
- Dimension: 1 1/8" W.

Product #	Height
WM58-18	18"
WM58-24	24"
WM58-36	36"
WM58-48	48"
WM58-72	72"

Heavy-Duty Hooks

- Can be used to store various types of parts and tools adequately on the wall panel system;
- Capacity: 50 lb. distributed evenly on each hook;
- Available with a square or round shape.

Product #	Type of Hook	Length
WM9A-06	Square	6"
WM9A-12	Square	12"
WM9B-06	Round	6"
WM9B-12	Round	12"

Support for Cans

- Can be used to organize and store various aerosol cans;
- Also suitable for beverage cans;
- The 6" wide model can be used to store 2 cans (standard sizes) and the 15" wide model can contain 5 cans.

Product #	W x D x H
WM9D-06	6" x 3" x 4"
WM9D-15	15" x 3" x 4"

Support for Plastic Bins

- Facilitates the integration and management of small parts in a "5S" storage system;
- Can be used to include plastic bins (RG20) in the wall panel system.

Product #	W x H
WM9C-06	6" x 3"
WM9C-15	15" x 3"

Tiltable Shelf

- Designed to support parts, plastic bins and boxes.
- Clips onto WM57, SH67, SH68 or SH69 panels;
- Slotted to receive SH52 dividers at every 2" c/c;
- The shelf can be angled at 15° to easily find what you looking for;
- The shelf is reversible and its edge may serve as a back stop for plastic bins or binders;
- Capacity: 50 lb., evenly distributed load.

Product #	W x D
WM21-1308	13" x 8"
WM21-1312	13" x 12"
WM21-1508	15" x 8"
WM21-1512	15" x 12"
WM21-3108	31" x 8"
WM21-3112	31" x 12"

Screwdrivers Holder

- Used with wall panels (WM57), or perforated panels (SH38, SH39, SR39) or utility panels (SH67, SH68, SH69);
- Holds 6 to 12 screwdrivers.

Product #	W x D x H
WM9N-01	9" x 1 1/2" x 2"
WM9N-02	9" x 3 3/16" x 2"

Pliers Holder

- Used with wall panels (WM57), or perforated panels (SH38, SH39, SR39) or utility panels (SH67, SH68, SH69);
- Holds up to 6 pliers.

Product #	W x D x H
WM9M-01	9" x 2 1/2" x 2"

CASE STUDIES

Team Ford Edmonton (AB)

Challenge:

Having decided to build a new venue for its dealership, the Team Ford needed to update its service and parts departments.

Objective:

To build a functional and attractive service department for technicians, and an efficient and industry-adapted storage system for the parts department.

Rousseau solution:

Workstations for GT technicians for the service department, and Spider® shelving and mini-racking as well as drawers in shelving for the parts department.

The Team Ford dealership had been operating out of the same building for nearly thirty years when they decided to demolish and replace it with a more modern construction. At the same time, they decided to completely revamp their storage and workstations that their employees would be using.

Steve Yakimchuk, the service manager, and Kirk Rendall, the parts manager, contacted various automobile dealerships in the region to see what solutions they were using. As part of a larger automobile group which consists of 32 dealerships, Team Ford's managers had access to a number of businesses such as theirs which would have used different manufacturers for similar projects. They research solutions among newer dealerships, but also at older ones that were built 10 to 15 years ago in order to see how the products evolved over time. They selected a few manufacturing companies to bid on their project, including Rousseau Metal Inc.

It's then that John Fontaine, a regional sales rep for Waymarc Industries and specialist in Rousseau products met with the Team Ford to present them with a variety of options.

Mr. Fontaine describes the work that went into the new parts department: "Together with Shawn Larson, Waymarc's head designer, we worked on designing benches that would work for each technician, yet have the wall to wall design the customer wanted with no spaces between the benches". The Rousseau expert also ensured that each technician had enough storage for his tools and that space was organized with attention to aesthetics, so that, for example, the levelling glide was concealed and out of sight. When it came to the parts department, John Fontaine and Shawn Larson worked closely with Kirk Rendall to create the best possible plan for the space that Team Ford had allocated. When talking about working with Waymarc, the local Rousseau expert, Steve Yakimchuk of Team Ford stated, "They pretty much helped me from start to finish. I had a general idea of what I wanted and through poorly drawn sketches and short conversations, he came back to me with some proposed layouts and we worked to refine what we had. Their expertise is what got me to what I got now."

In the end, the Rousseau workstations gave the service department a clean and organized look and sufficient storage for each employee, with heavy-duty products that will last them for years to come. And in its new parts department, Team Ford now stores small parts in the shelving drawers, and its larger items in the mini-racking units. Hanging panels installed at the end of aisles can be used for hanging other items. Finally, the storage units specially designed for the auto industry, mainly mini-racking with rails and hooks, allow for storage of objects that are irregular in shape.

Steve Yakimchuk maintains that the service department "is a better environment. Visually, when you walk into our shop, it is organized. Because we have wall-to-wall Rousseau, each technician gets a greater work surface than if they had their own toolbox. That is probably one of the biggest benefits." One of the effects of the project that was not expected, according to the service manager, is the increased ability for Team Ford to attract new employees. He explains that "In Alberta, it is extremely difficult to find technicians. We have an employee shortage out here." With the new storage, potential technicians are truly impressed and want to work in such a well-structured environment.

Happy with the results, the parts manager at Team Ford recounts his experience with Rousseau, "We basically looked at all the products out there and at the end, I felt that Rousseau's options were better. The big thing I like with Rousseau is their willingness to work with you and do some custom-type work. The quality is great. I think right now it is the best product available out there." John Fontaine attributes much of the success of the project to the easy collaboration with Rousseau: "There were many people at Rousseau who were involved in the success of getting this project to completion. Gerald Gustavson, Rousseau's regional manager, and Jody Smith, Rousseau's project manager, worked hard to meet all of my demands and requests that were extremely unique. Not many companies would have the resources or willingness to do this but Rousseau did."

The people at Team Ford have now been working out of their new building for a few months and have been very satisfied with Rousseau products. "It is definitely what I would recommend. There is all the combination of shelving and drawers and all that you need custom built for your situation."

CASE STUDIES

BMW Mississauga- Mississauga, Canada

Challenge:

Find the ideal solution to maximize the space in the parts department at BMW Mississauga, and by doing so, assemble the entire inventory in one place.

Objective:

Create a storage solution that would allow the client to solve the problem of having little space in the parts department, using Spider® Shelving Systems and Rousseau drawers.

Rousseau advantages:

BMW Mississauga is a prestigious car dealership which serves a huge client base in the Greater Toronto Area, in Canada. This very busy garage was looking for a solution for their lack of space in the existing parts department.

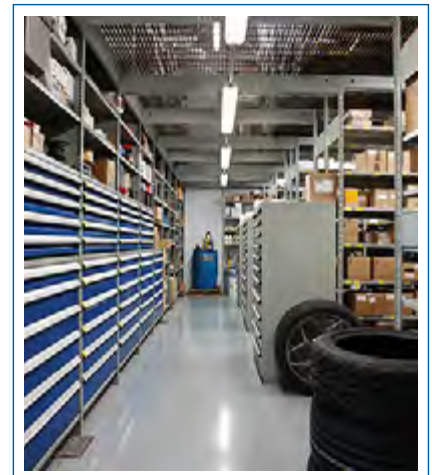

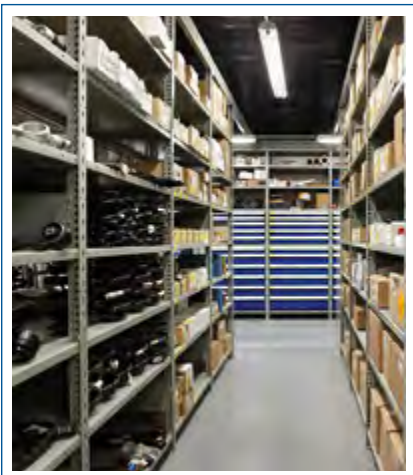

When Derek Copeland, Parts Manager at BMW Mississauga, came to the conclusion that the parts department needed to be renovated, he had already made his decision on which option to go with. The owner of this high end dealership owns several other dealerships, among them a Ferrari dealership where he had selected Rousseau Storage Solutions in the past. He was so satisfied with the results that he knew right away he would use Rousseau systems for his BMW parts department to get the customized solution he needed.

"He was always available to talk to us. He asked questions about our needs and he presented us with his proposal. I liked their solution very much." This is what Mr. Copeland had to say about our automotive specialist Mike de Prinse. He loved his experience! After a week of working on the project, our distributor was successful in presenting the client with a customized solution, adapted to their specific needs. Quality, modularity, flexibility and efficiency were all combined to provide a personalized solution. The excellent team work between Mr. Copeland and Mr. de Prinse was the key to the success of this project!

"Our parts department had a problem with lack of space. It is impressive to see how the layout of the shelving, drawers and accessories in the parts department has made storing all of our materials in a limited space possible, while also maximizing the work environment and storage. The productivity in the parts department has significantly increased since installing these solutions!"

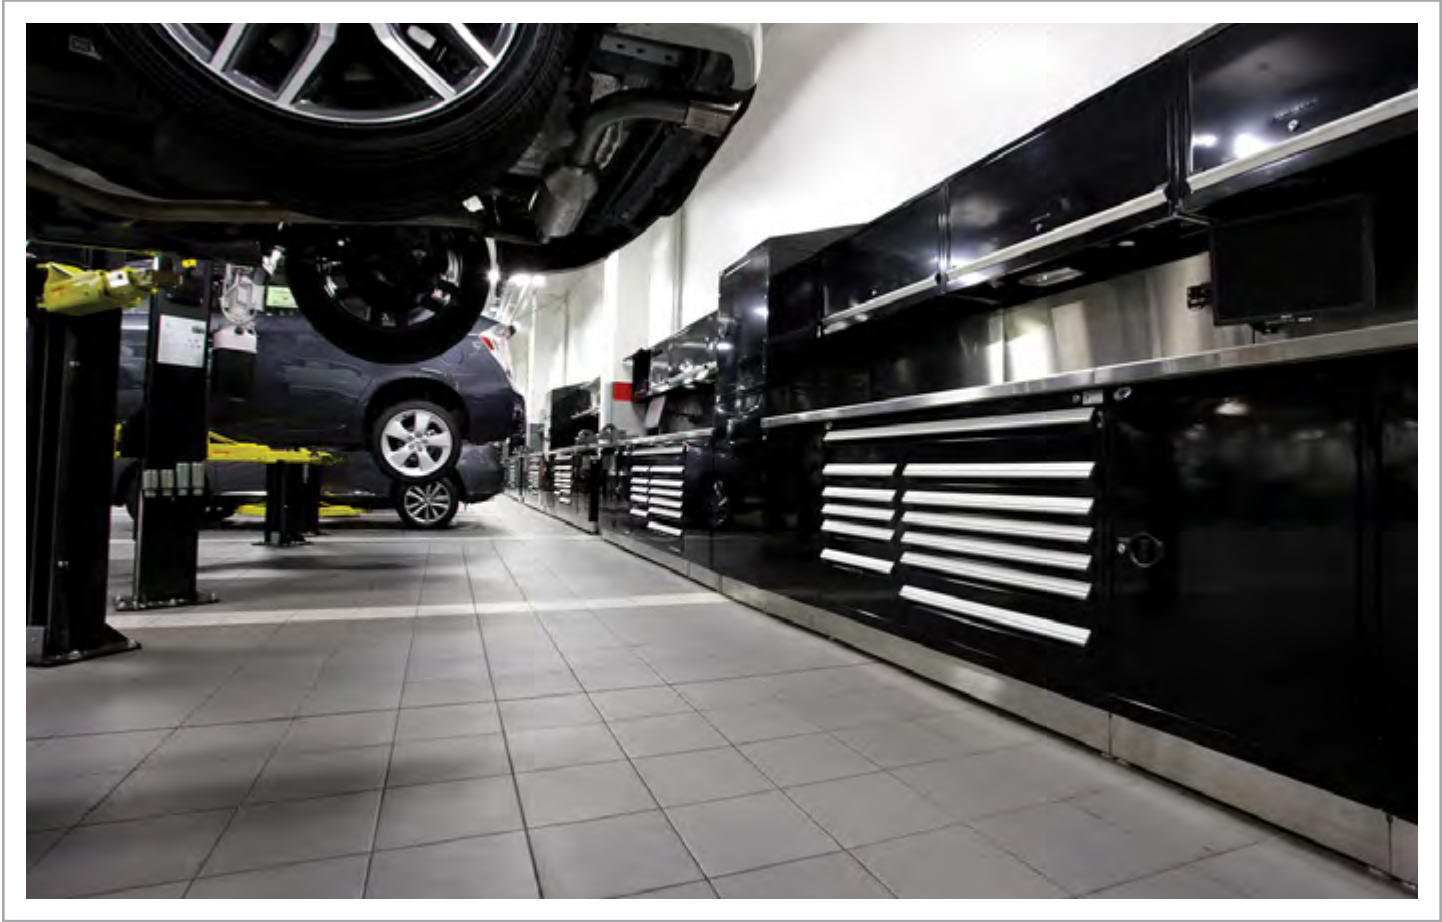

Final comments from Derek Copeland:

Here is what Mr. Copeland noticed most about Rousseau Storage Systems: "Durability and quality are what best describe Rousseau. Their modular storage materials allow you to create infinite configurations".
