

ROTARY LIFT
THE WORLD'S MOST TRUSTED LIFT

MACH SERIES MOBILE COLUMN LIFTS

THE FASTER AND EASIER CHOICE FOR YOUR MAINTENANCE FACILITY

HEAVY DUTY MOBILE COLUMN LIFTS

Only Rotary Lift mobile column lifts offer the versatility and time savings features that keep your bays productive, your revenue streaming and your trucks back on the road.

SETTING THE STANDARD

Functionality, space consideration, increased productivity and concern for the environment are key components to consider when investing in a new heavy-duty lift.

Our designers and engineers have taken all these considerations and used them to develop the most innovative and versatile heavy-duty lift products on the market today.

All from a partner you've trusted since 1925.

Rotary Lift.

Operator friendly designs and industry exclusive features offer you mobile lifts that are easier to use with a set up that is over 30% faster than similar competitive lifts.

Fast and Easy: Now in 2 Models!

Productivity is the key for any shop, so our lifts are packed with features that help your technicians get vehicles up on the lift and back on the road faster and easier than anyone else.

- Rotary's exclusive patented intuitive control console allows the lift to be fully controlled from any column
- Columns are battery operated so there are no power cords creating an open work area free of interference
- DC battery power creates faster lift cycle times 78 seconds to full rise
- The patented wireless column communication eliminates communication cables creating a faster setup reducing technician's setup time by 75%.
- The steering / braking system requires no manual operation of the jacks, saving time on every set up

Environmentally Friendly:

The MACH Series takes protecting the environment seriously.

- Surface mounted and portable, it requires no excavation or site preparation
- Battery operated with an onboard charger that uses only 110v electricity to charge
- Optional high efficiency LED lighting saves electricity and money over comparable incandescent and fluorescent lighting

Superior by Design:

- Rotary maintains the largest in-house mechanical, electrical and controls engineering staff in the industry using state of the art design, modeling and analysis software to ensure you get a well designed, reliable product
- Rotary rigorously cycle tests its lifts and components for at least 20,000 cycles at rated load, giving you a robust, proven and quality tested lift that won't let you down

Third Party Certified:

The MACH Series lifts meets the ANSI/ALI ALCTV 2011 standard, including the required third party validation.

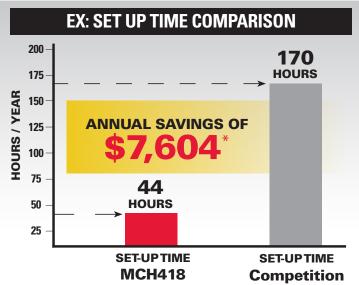

MOBILE COLUMN LIFTS INCREASE PRODUCTIVITY

and save your technicians time and you money!

Rotary Lift's MACH Series Lifts are not only faster and easier than the competition... your lift pays for itself in less than 4 years!

HOW MUCH WILL YOU SAVE WITH A MACH?

* Study based on technician rate of \$60/hr and assumed 50 week work year.

"Clovis Unified School District purchased the MACH Wireless Lift System and have used these lifts continuously on our transit bus fleet. The combination of ease of setup, maneuverability, and speed have greatly increased the production in our shop. We own other wireless lifts and they do not compare. These lifts are much more user-friendly and combined with the corded feature, we are always assured that we will not be left up in the air. Utilizing these in a bay that was not originally equipped with an in-ground lift system has made what was once dead space, efficient space."

- Lee A. Peterson, Manager, Vehicle Maintenance Clovis Unified School District

"We wanted a product that was worth the cost and easy to use and supported our core value of safety. What we found with the Rotary lift system is that it helped reduce the number of knee injuries, back injuries and hand injuries. We did a time studies on the drive line repairs and compared that to other shops that were not using the Rotary Lift system and we found a 10 to 15% difference in cycle times."

- James Enright, Regional Maintenance Director Schneider National

"After extensive testing of multiple mobile column

lifts, I chose the Rotary MACH4 as **having the most**

EX: ANNUAL LABOR SAVINGS CALCULATION

- 1 Cost Per Labor Hour: \$75.00

advanced design, most options and ease of relocating being the best choice for the city. After receiving the lifts, Rotary's customer service and local distributor experience was exceptional. Not only did they answer my questions, but they went above & beyond in addressing any issues I had with the lifts. Between the product and the company, you can't go wrong."

- Daniel S. Corbin, Fleet Operations Manager Town of Summerville, South Carolina

MCH13

13,000 LBS. COLUMN CAPACITY

MCH13 FEATURES

Boasting most of the same great features as the MCH18, the MCH13 is the perfect combination of capacity, features and value. Lift trucks and light duty vehicles with two, four, six or eight columns.

INVERTED — HYDRAULIC CYLINDER

The hydraulic cylinder is inverted inside the carriage and the chrome piston rod is protected from debris and damage. This extends the life of the column and reduce maintenance frequency and cost

No need to manually pump the jacks up to move the columns in and out - saves precious time *on every set up*

accomodate approximate wheel rim sizes of 9" to 24".

BATTERY OPERATED WITH INTERNAL CHARGER

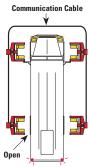

52,000 lbs. capacity

During use, there are no power cords to clutter up the service bay improving portability.

HORSESHOE WIRING - WIRED MACH SERIES LIFTS

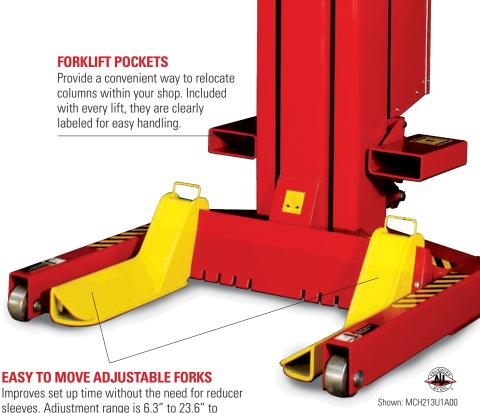

While other mobile column lifts are connected by four cables, the wired MACH Series columns use

just three (forming a horseshoe), so the front or back of the lift is always open. Vehicles can be driven in and out of the bay without wasting time to disconnect and reconnect cables.

QUICK CONNECT CABLES

Included with the lift, these lightweight and easy to connect cables are 33 feet long.

HEAVY-DUTY 52,000 - 104,000 LBS. CAPACITY

PATENTED INTUITIVE CONTROL CONSOLE

Rotary's exclusive control console allows the lift to be fully controlled from any column

MCH13 / 13,000 lb. COLUMN CAPACITY

MOBILE COLUMN LIFT	MCH413	MCH613	MCH813
Column configuration	4	6	8
Capacity	52,000 lbs.	78,000 lbs.	104,000 lbs.
Rise	69" (1760 mm)		
Lifting cycles	16 per charge*		
Column width	43" (1092 mm)		
Wheel Rim Size	9"to 24" (228 to 610 mm)		
Clearance from fork to column	10" (254 mm)		
Speed of rise	68 seconds		
Charging voltage	110v - 240v / 50/60Hz charger**		
*At rated capacity	See page 9 for lift accessories		

MCH13 FRAME-ENGAGING LIFTING KIT

12,000 lbs. capacity fore and aft, frame-engaging end lift enables lifting by the front and rear of the vehicle using stacking adapters. MCH13 truck lift kit #M140079 is for use with two MCH13 series columns only.

See page 9 for more information

**Call factory for alternate voltage

ROTARY OFFERS ACCESSORIES TECHNICIANS NEED TO GET THE MOST FROM THEIR MACH MOBILE COLUMN LIFTS.

FRAME ENGAGING LIFTING KITS

Fore and aft, frame-engaging end lift enables lifting by the front and rear of the vehicle using stacking adapters. For use with two MCH18 or MCH13 series columns.

FRAME KIT	M140005 MCH18 MODEL	M140079 MCH13 MODEL
Column configuration	2	2
Capacity	15,000 lbs.	12,000 lbs.
Rise	70" (1778 mm)	69" (1760mm)
Clearance from fork to column	10" (254 mm)	
Speed of rise	78 seconds	68 seconds
Charging voltage	110v charger*	110v - 240v 50/60Hz charger*

^{*}Call factory for alternate voltage.

FORK LIFT KIT

Makes it easy to service fork lifts using two MCH18 columns - easily attaches to the base of the column giving the clearance needed to raise fork lifts with a capacity of 10,000 lbs.

Shown: M140004 Forklift Ramp Kit / 10,000 lbs. capacity

EXTENDED FORK KITS

Longer forks and support legs available to support inboard tires on dual-wheeled axles. Also for use with M140004 forklift ramp kit and M140005 truck frame kit. For use on the MCH18 Series only.

22" Forks and 8" Legs: Part #M140001 20" Forks and 6" Legs: Part #M140041

Shown: M140001

LED LIGHTING

High-efficiency service lamps with single touch operation provide convenient hands-free lighting from the lift's control panel. Operates on the column's battery power.

Shown: M140002 For use on the MCH418 ONLY

OPTIONAL WEIGHT GAUGE

Know what you are lifting instantly with this column gauge. These gauges approximate the weight being lifted by one column - converting pressure into a weight.

Shown: M140019

LARGE WHEEL KIT

Larger tires are raised on ramps to allow for proper fork placement. MCH18 and MCH13 approved.
